Year 5, Half Term Project – Autumn 2

Complete as many activities as you like, but try to choose at least 3. Show your best work and have fun exploring the world's amazing biomes!
Deadline: 6/11/2026

1. Writing – Biome Fact File **Create a fact file about one biome of your choice.** **Include: location, climate, vegetation, animals, and human impact.** **Add illustrations or diagrams.**	**2. Reading & Research – Biome Report** **Read an article or watch a video about your biome.** **Write a short report summarising the key points.** **Add two questions for a friend to answer.**	**3. Maths – Biome Statistics** **Research average rainfall and temperature for your biome.** **Make a graph or chart to show your data.** **Compare it with another biome and describe the differences.**
4. Geography – Biome Map **Draw a world map and label where your biome is found.** **Colour-code different biomes with a key.** **Add a few icons for plants and animals typical of each biome.**	**5. Art – Biome Collage** **Create a collage or painting of your biome.** **Include plants, animals, and the landscape.** **Be creative—use magazines, coloured paper, or natural materials.**	**6. DT – Biome Model** **Build a 3D model of a biome using clay, cardboard, or recycled materials.** **Include at least 3 plants and 3 animals.**
7. Cooking – Biome Meal **Research food from a region within your biome (e.g., tropical fruits for a rainforest).** **Prepare a simple dish or snack inspired by the biome.** **Take a photo and write the recipe.**	**8. Science – Plant Adaptations** **Choose one plant from your biome.** **Describe how it has adapted to survive (e.g., cactus storing water).** **Draw and label the plant.**	**9. Competition** **Green Schools Programme** **We need you to design a front cover for our project book.**  **Think about everything we learned in sustainability.**

Tip: Mix and match activities for writing, science, art, maths, and DT to make your project really exciting!
