Key Setting Information

Name of Setting	Mission Grove Primary School
Setting Type	Primary school
Setting Main Phone Number	020 8520 3487
Setting Main Email	office@missiongrove.org.uk
Setting Address	North site, Buxton Road, Walthamstow South site, Edinburgh Road, Walthamstow
Designated Safeguarding Lead	Kate Jennings
Deputy Designated Safeguarding Leads	Pritpal Atwal Shaesta Khan Ben Darling Linda Foxcroft During holiday care: Debi Swinhoe and Meshak Taylor
Named person responsible for allegations against staff and volunteers	Kate Jennings
SENDCo (inclusion manager)	Linda Foxcroft
LAC / PLAC Lead	Linda Foxcroft
e-Safety Coordinator	Rahima Mozir
Headteacher	Kate Jennings
Chair of Governors	Matilda Thaddeus-Johns
Governance Lead for Safeguarding	Joanne Grainger

Introduction

This policy is underpinned by the Department for Education (DfE) updated version of the statutory guidance Keeping Children Safe in Education (KCSIE) 2023.

Keeping Children Safe in Education 2023 is statutory guidance and applies to all schools and colleges. Schools are defined as “all schools whether maintained, non-maintained or independent schools (including academies, free schools and alternative provision academies), maintained nursery schools and pupil referral units”. Colleges means “further education colleges and sixth-form colleges as established under the Further and Higher Education Act 1992 and institutions designated as being within the further education sector. Colleges also includes ‘providers of post 16 Education as set out in the Apprenticeships, Skills, Children and Learning Act 2009 (as amended): 16-19 Academies, Special Post-16 institutions and Independent Training Providers.” (KCSIE 2023)

There is an expectation that staff have understood rather than just read updated KCSIE 2023. School governors and proprietors to decide if staff not working directly with children are to read Part One or only need to be given a condensed version.

A link to the full version of KCSIE 2023 can be found here - [Keeping children safe in education 2023](#)

Purpose & Scope

Our commitment to Safeguarding

We believe that all children have a right to be safe and should be protected from all forms of abuse and neglect.

Although reporting concerns can be uncomfortable for staff, and be unpleasant for families, as a school we recognise that it is better to help children, young people and their families early, before issues escalate and become more damaging.

Because safeguarding is everyone's responsibility, all staff are committed to recognising and reporting all concerns relating to child safety, wellbeing and are vigilant to spot signs of abuse and maltreatment.

As such, we promise to:

- Be observant and alert to signs of abuse
- Be curious and question explanations given by parents / children / staff
- Be compassionate, honest and clear
- Ask for support when we feel at the limit of our experience / patience / skills
- Understand and follow school policies and procedures
- Work together with other agencies when appropriate to make sure that support for children, young people and families is effective and helps improve outcomes.

Children learn and thrive best when they are healthy, safe and secure, when their individual needs are met, and when they have positive relationships with the adults caring for them. Mission Grove aims to offer an environment where children feel welcome, safe, stimulated and where children are able to enjoy learning and developing in confidence.

In order to take all necessary steps to keep children safe and well, Mission Grove will safeguard children; ensure the suitability of adults who have contact with children; promote good health; manage behaviour; and maintain records, policies and procedures.

The purpose of this policy is to safeguard and promote the welfare of children at Mission Grove. Safeguarding and promoting the welfare of children is defined for the purposes of this policy as:

- Protecting children from maltreatment;
- Preventing impairment of children's health or development;
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care;

- Taking action to enable all children to have the best outcomes.

In order to take all necessary steps to keep children safe and well, Mission Grove Primary School will:

- Ensure our approach is child-centred, considering always what is in the best interest of the child
- Safeguard children both preventatively and responsively
- Ensure the suitability of adults who have contact with children
- Promote good health, effective management of medical conditions, and the development of self-care in children & young people
- Have clear standards of behaviour for staff / volunteers and children
- Manage behaviour by anticipating possible concerns, prevention strategies, and clear, fair responses to challenging behaviour
- Maintain records that document safeguarding concerns over time, including low-level worries about a child or young people that together may paint a picture of concern
- Ensure that all policies and procedures relating to safeguarding and wellbeing are updated annually in collaboration with the governing body.

Mission Grove believes that no child or young person should ever experience abuse, maltreatment or neglect of any kind, and that it is our responsibility to keep children safe. We are committed to practise in such a way that both prevents and protects.

We recognise our role as educators to support parents and the community at wide to develop more effective parenting and behaviour management strategies, and to challenge any behaviour that puts children at risk.

Who is responsible for Safeguarding?

No single professional can have a full picture of a child's needs and circumstances. Safeguarding and promoting the welfare of children is everyone's responsibility. Everyone who comes into contact with children and their families and carers has a role to play in safeguarding children.

If children and families are to receive the right help at the right time, everyone who comes into contact with them has a role to play in identifying concerns, sharing information and taking prompt action.

This policy applies to all staff, including paid staff, volunteers and sessional workers, agency staff, organisations contracted to deliver services within Mission Grove, one-off visitors, students or anyone working on behalf of Mission Grove. This policy relates to all children (anyone up to their 18th birthday) with whom Mission Grove works.

This policy is readily available via our website (<http://www.missiongroveschool.co.uk>) for professionals, parents and partners. Parents will be signposted to the school's website via the school's newsletter and app after each update, should they wish to read the latest policy. Support and consideration will be given to those parents for whom English is not a first language.

The voice of the child

All staff will endeavour to ensure that their approach is child- and family-centred. This means that they will consider what is in the best interests of the child, and how to approach families with compassion and respect.

Staff will always seek to understand and give voice to the lived experience of a given child and young person within Mission Grove at home and within their wider community, even if children and young people are unable / unwilling to express their experience themselves. Even non-verbal children have can express preference and wishes, and it is our job as professionals to ensure that these are understood and incorporated in our plans.

Safeguarding legislation and guidance

Section 175 of the [Education Act](#) 2002 requires local education authorities and the governors of maintained schools and further education (FE) colleges to make arrangements to ensure that their functions are carried out with a view to safeguarding and promoting the welfare of children.

The [Teachers' Standards](#) state that teachers, including headteachers, must have regard for the need to safeguard pupils' well-being, in accordance with statutory provisions; and uphold public trust in the teaching profession as part of their professional duties.

The statutory guidance [Working Together to Safeguard Children](#) 2018 covers the legislative requirements and expectations on individual services (including schools and colleges) to safeguard and promote the welfare of children. It also provides the framework for the three local safeguarding partners (the local authority; a clinical commissioning group for an area, any part of which falls within the local authority; and the chief officer of Police for a Police area, any part of which falls within the local authority area) to make arrangements to work together to safeguard and promote the welfare of local children including identifying and responding to their needs. The guidance confirms that it applies, in its entirety, to all schools.

The statutory guidance [Keeping Children Safe in Education](#) 2023 is issued under Section 175 of the [Education Act](#) 2002, the [Education \(Independent School Standards\) Regulations](#) 2014 and the [Non-Maintained Special Schools \(England\) Regulations](#) 2015.

[What to do if you're worried a child is being abused](#) 2015 - Advice for practitioners is non- statutory advice which helps practitioners (everyone who works with children) to identify abuse and neglect and take appropriate action. (copies on the teacher drive , schoolpod and in the staffroom)

[Keeping Children Safe in Education](#) 2023. All staff are issued with a copy and can find the latest version on theStaff can find a copy **on the government website:**

<https://www.gov.uk/government/publications/keeping-children-safe-in-education--2>

All staff must read Part One, Part five and Annex B - as a minimum. In some circumstances, staff who do not work directly with children may be asked to read Annex A (a condensed version of Part one). All staff are required to provide signed confirmation that they have read Part One of [Keeping Children Safe in Education](#) 2023 or Annex A (whichever is applicable) a copy of which will be kept in staff files.

Guiding principles

Be observant and alert to signs of abuse

- You are in a unique position to be able to observe signs of abuse or neglect, or changes in behaviour which may indicate a child may be being abused or neglected.

Be curious and question

- Be alert to the signs of abuse and neglect, and question behaviour/accounts of children and parents/carers; don't necessarily take what you are told at face value.

Ask for support

- Safeguarding is most effective when it is a collaborative process.
- Make sure you know where to turn to if you need to ask for help.
- If no help is at hand, be sure that you refer to children's social care (e.g., MASH or LADO) or to the police/ambulance without delay.

Follow local and setting policy & guidance

- You must work within Waltham Forest's multi-agency safeguarding arrangements as set out within the local strategic partnership boards, including Waltham Forest safeguarding children board.

Always be guided by the following key principles

- All children have a right to be safe and should be protected from all forms of abuse and neglect
- Safeguarding children is everyone's responsibility
- It is better to help children as early as possible, before issues escalate and become more damaging
- Work together with other agencies: children and families are best supported and protected when there is a coordinated response from all relevant agencies.

Constructive process of inquiry and support

- Don't let other considerations, like the fear of damaging relationships with adults, get in the way of protecting children from abuse and neglect.
- If you think that referral to children's social care is necessary, you must not delay.
- See child protection and safeguarding as the beginning of a process of inquiry, not as an accusation or punishment.

Requirements for ALL Staff

Mission Grove is committed to safeguarding and promoting the welfare of all of its pupils. Each pupil's welfare is of paramount importance.

Systems for ALL staff

As such, **ALL staff** should be aware of systems within the school which support safeguarding. These are covered during training sessions and explained as part of staff induction. This includes:

- the safeguarding policy;
- the behaviour policy;
- the whistleblowing policy
- the acceptable use policy
- the protocol for staff members (code of conduct);
- the safeguarding response to children who go missing from education; and
- the role of the designated safeguarding lead (including the identity of the designated safeguarding lead and deputies).

Support for ALL Staff

In order to achieve this, all staff will receive:

- appropriate safeguarding and child protection training which is regularly updated.
- in addition, all staff should receive safeguarding and child protection updates (for example, via email, e-bulletins and staff meetings), as required, and at least annually, to provide them with relevant skills and knowledge to safeguard children effectively.

Training will ensure that ALL staff:

- are aware of their local early help process and understand their role in it.
- are aware of the process for making referrals to children's social care and for statutory assessments under the Children Act 1989
- are aware of the process for making referrals of allegations against professionals to the local authority's **Designated Officer** (usually known as the LADO)
- know what to do if a child tells them he/she is being abused or neglected.
- know how to manage the requirement to maintain an appropriate level of confidentiality.

Governance & Leadership

Everyone is individually responsible for safeguarding. However, safeguarding is never a clear-cut matter, and requires expertise and experience to guide practice.

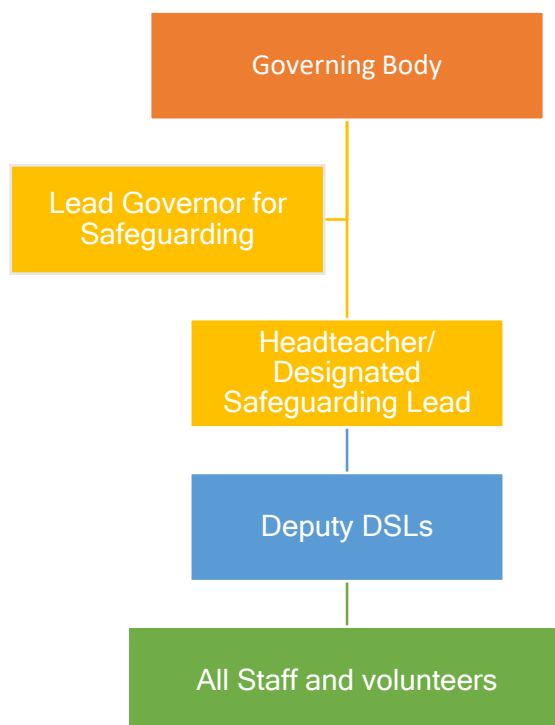

Therefore, alongside this shared individual responsibility, there should be a safeguarding lead within each setting to support both staff and children & young people, and to monitor compliance, ensure adequate and appropriate training, act as a liaison with other agencies and make difficult and complex decisions.

In turn, the safeguarding leadership within Mission Grove should be held to account by the governing body and the lead governor for safeguarding.

Quality Assurance

We make our requirement to share accurate, appropriate and timely section 11 / section 3 audit data with the local authority a priority.

We also engage in support and training from the local authority and other agencies when appropriate.

The Safeguarding Governance structure in Mission Grove Primary School.

Designated Safeguarding Leads (DSL)

The DSL is the headteacher. During term time the DSL and/or a Deputy Designated Safeguarding Leads (DDSL) will always be available while children are on site for staff in the school to discuss any safeguarding concerns.

In addition to the DSL and 3 deputy DSLs, the school has trained two additional deputy DSLs for during holiday activities. All deputies are trained to the same standard as the designated safeguarding lead.

The broad areas of responsibility for the DSL are:

- Management of referrals
- Provides advice, support and expertise
- Maintains and manages records
- Champions children's wellbeing
- Primary point of contact for safeguarding
- Supports and liaises with parents, carers and families
- Sets communication policy
- Coordinates training and induction
- Ensures Safer Recruitment / Management of Allegations against Staff & Volunteers

It is important that DSLs obtain a full and rich picture of children's experience. As soon as staff identify indicators of concern, they should record all concerns (including lower-level/pastoral, concerns about a child's wellbeing – be it expressed in behaviour, presentation, relationships) on schoolpod and if the concerns are serious, they should speak to the DSL without delay.

The Headteacher

Headteacher, Kate Jennings, should be contacted immediately in the event that possible harm (emotional, physical, sexual, neglect) to a child or young person has been caused by a member of staff or volunteer.

Leads by Setting Safeguarding Ethos

- Ensures that the child protection policy and procedures are understood and implemented by all staff.
- Ensures that all staff feel able to raise concerns about poor or unsafe practice and that such concerns are handled sensitively and in accordance with the whistleblowing procedures.
- Ensures that the culture of the school supports the provision of effective pastoral care and early help, and that staff do everything they can to support social workers when children's social care become involved.
- Ensures that pupils are always provided with opportunities throughout the curriculum to learn about safeguarding and how to keep themselves safe, including when online, as part of a broad and balanced curriculum.

Prioritises Safeguarding

- Allocates enough time, training, support and resources, including cover arrangements when necessary, to enable the DSL and DDSL to carry out their roles effectively, including the assessment of pupils and attendance at strategy discussions and other necessary meetings.
- Supports the designated teacher for looked after children to promote the educational achievement of any pupils who are looked after by the Local Authority and who have left care through adoption, special guardianship or child arrangement orders or who were adopted from state care outside England and Wales.

Ensures Safer Recruitment and Allegations against Staff & Volunteers (ASV)

- Refers all allegations that a child has been harmed by or that children may be at risk of harm from a member of staff (including agency staff and supply teacher) or volunteer to the Designated Officer for the Local Authority (LADO) within one working day prior to any internal investigation.
- Ensures that anyone who has harmed or may pose a risk of harm to a child is referred to the Disclosure and Barring Service, as advised by the LADO.
- Appoints a case officer who will be a member of the senior leadership team to investigate allegations concerning members of staff and volunteers and/or act as a point of contact for the member of staff/volunteer against whom the allegation is made.

The Governing Body

Ensures that Mission Grove School:

- Appoints a DSL who is a member of the senior leadership team and who has undertaken training in multi-agency working, in addition to child protection training
- Ensures that the DSL role is explicit in the role holder's job description (and the job description of any DDSL) and that safeguarding responsibilities are identified explicitly in the job/role descriptions of every member of staff and volunteer.
- Ensures that the DSL or a DDSL is always available during school hours for staff to discuss any safeguarding concerns. The DSL or a DDSL will generally be expected to be available in person but in exceptional circumstances availability will be via telephone and/or Microsoft Teams or other such media.
- Ensures that the DSL or a DDSL is always available at least via telephone or other media as above during any out of hours/out of term school activities.
- Has a child protection policy and procedures, including a staff code of conduct, that are consistent with local safeguarding partnership and statutory requirements, reviewed annually and made available publicly on the school's website or by other means.
- Has procedures for dealing with allegations of abuse made against members of staff (including supply staff) and volunteers including allegations made against the headteacher and allegations against other children.
- Follows safer recruitment procedures that include statutory checks on the suitability of staff to work with children and disqualification from providing childcare regulations.

- Develops an induction strategy that ensures all staff, including the headteacher, and volunteers receive information about the school's safeguarding arrangements, Staff Behaviour Policy (Code of Conduct) and the role of the DSL on induction.
- Develops a training strategy that ensures all staff, including the headteacher, and volunteers receive appropriate and regularly updated safeguarding and child protection training and updates as required (at least annually) to provide them with the relevant skills and knowledge to safeguard children effectively. The training strategy will also ensure that the DSL receives refresher training and regular updates as defined under the DSL's duties above.
- Ensures that all staff, including temporary staff and volunteers, have read and understood the school's child protection and safeguarding policy and Staff Behaviour Policy (code of conduct) before they start work at the school.
- Appoints a designated teacher to promote the educational achievement of children who are looked after by the Local Authority and who have left care through adoption, special guardianship or child arrangement orders or who were adopted from state care outside England and Wales; and ensures that the designated teacher has appropriate training.
- Contributes to multi-agency working and plans.
- Ensure there are clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems.
- Ensures an effective pastoral care offer and Early Help offer.
- Ensures that children are taught about how to identify risks, including online, and how to access support and help.
- Ensures that the voice and lived experiences of children are heard and reflected in the life of Mission Grove.
- Ensure relevant staff have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information as provided for in the [Data Protection Act 2018](#) and [General Data Protection Regulations \(GDPR\)](#). This includes:
 - Being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information which is sensitive and personal and should be treated as 'special category personal data'
 - Understanding that safeguarding of children and individuals at risk is a processing condition that allows practitioners to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so and that the sharing of information will enhance the safeguarding of a child in a timely manner but it is not possible to gain consent, if cannot be reasonably expected that against consent or if to gain consent would place a child at risk
 - For schools, not providing personal data where the serious harm test under the legislation is met. An explanation of the harm test can be found on the [Disclosure and Barring](#) service website. Where in doubt independent legal advice should be sought.

Chair of Governors

The governing body nominates a member (normally the chair) to be responsible for liaising with the Local Authority and other agencies in the event of an allegation being made against the headteacher.

Link Governor for Safeguarding

The governing body also identifies a named governor to take leadership responsibility for school's safeguarding arrangements (Link Governor for Safeguarding). That governor will maintain regular contact with the DSL, meeting each half term, and will ensure that the governing body receives regular reports about safeguarding activity at Mission Grove.

It is the responsibility of the governing body to ensure that the school's safeguarding, recruitment and managing allegations procedures consider the procedures and practice of the Local Authority, local safeguarding partnership and national guidance. The governing body is also responsible for overseeing Safeguarding Audits completed and returned to the Local Authority under s175 of the Education Act 2002.

All school staff

All staff have a responsibility to provide a safe learning environment in which our children can learn. Any child may benefit from early help and all staff members are aware of the local early help process and our role in it. They are aware of signs of abuse and neglect so they are able to identify children who may be in need of help or protection. All staff are aware of and follow school processes (as set out in this policy) and are aware of how to make a referral to Social Care if there is a need to do so. If staff have any concerns about a child's welfare, they must act on them immediately and speak with the DSL or DDSL – they do not assume that others have taken action.

Understanding & Identifying Abuse

Being alert to abuse and to the fact that 'it could happen here' is crucial to safeguarding. Knowing what to look for is vital for the early identification of abuse and neglect. All staff are aware of the Indicators of abuse and neglect so that they are able to identify cases of children who may be in need of help or protection.

An abused child will often experience more than one type of abuse, as well as other difficulties. Children can be at risk of abuse or exploitation in situations outside their families. Abuse reduces resilience in children and puts them at further risk of abuse throughout their lives. Abuse and neglect can happen over a period but can also be a one-off event. Child abuse and neglect can have major long-term impacts on all aspects of a child's health, development and well-being.

Our school is aware of the signs of abuse and neglect so we are able to identify children who may be in need of help or protection. All staff are aware of environmental factors which may impact on a child's welfare and safety and understand safeguarding in the wider context (contextual safeguarding). Staff are aware of safeguarding issues that can put children at risk of harm and understand that behaviours linked to issues such as drug taking, alcohol abuse, deliberately missing education and sexting put children in danger.

Staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Staff however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken by following the procedures in this policy and speaking to the DSL.

Growing up with adverse childhood experiences (ACEs) such as abuse, neglect, community violence, homelessness, parental separation, bereavement or growing up in a household where adults are experiencing mental health issues or harmful alcohol or drug use, can lead to negative, lifelong emotional and physical outcomes. There is potential for ACEs to have a significantly harmful effect on the trajectory of a young person's life. The impact can affect their physical and mental health, self-worth and ability to develop healthy relationships.

When the stress of these adverse experiences is so severe or prolonged that a child is unable to process it, what should be a normal survival response becomes "toxic stress". This type of stress alters the functioning of the brain and has a long-lasting and injurious impact on the developing mind, which we call "trauma". This trauma affects the way those suffering it think and act throughout their lives. Understanding such mental and emotional trauma is key to understanding the behavior of millions of people.

Our school is working in partnership with a wide range of sectors and services to help reduce the incidence and impact of all types of childhood adversity, focusing on:

- support for children, parents and families to prevent ACEs
- mitigating ACEs for children and young people
- training for staff across the workforce in supporting people who have experienced trauma and identification of trauma

All staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.

Abuse and neglect are forms of maltreatment – a person may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm.

Child welfare concerns may arise in many different contexts, and can vary greatly in terms of their nature and seriousness:

- Children may be abused in a family or in an institutional or community setting, by those known to them or by a stranger, including, via the internet.
- In the case of female genital mutilation, children may be taken out of the country to be abused.
- They may be abused by an adult or adults, or another child or children.
- An abused child will often experience more than one type of abuse, as well as other difficulties.
- Abuse reduces resilience in children and puts them at further risk of abuse throughout their lives.

Abuse and neglect can happen over a period of time, but can also be a one-off event. Child abuse and neglect can have major long-term impacts on all aspects of a child's health, development and well-being.

Contextual Safeguarding

Safeguarding incidents and/or behaviours can be associated with factors outside the setting and/or can occur between children outside the setting. All staff, but especially DSLs should consider the context within which such incidents and/or behaviours occur. Examples may be recruitment and exploitation via criminal gangs.

This is known as contextual safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

Children's social care assessments should consider such factors so it is important that settings provide as much information as possible as part of the referral process. This will allow any assessment to consider all the available evidence and the full context of any abuse.

Types of Abuse

Abuse is a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm.

Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

There are four main categories of abuse and neglect:

- physical abuse
- emotional abuse
- sexual abuse
- neglect.

Physical Abuse

Physical abuse is deliberately physically hurting a child. It might take a variety of different forms, including hitting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating a child.

Physical abuse can happen in any family, but children may be more at risk if their parents have problems with drugs, alcohol and mental health or if they live in a home where domestic abuse happens.

Babies and disabled children also have a higher risk of suffering physical abuse.

Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child. Physical abuse can also occur outside of the family environment.

Indicators may include:

- Children with frequent injuries;
- Children with unexplained or unusual fractures or broken bones; and
- Children with unexplained bruises or cuts, burns or scalds; or bite marks.

Emotional Abuse

Emotional abuse is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on a child's emotional development.

Although the effects of emotional abuse might take a long time to be recognisable, practitioners will be in a position to observe it, for example, in the way that a parent interacts with their child.

Emotional abuse may involve deliberately telling a child that they are worthless, or unloved and inadequate. It may include not giving a child opportunities. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child from participating in normal social interaction.

It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Indicators may include:

- Children who are excessively withdrawn, fearful, or anxious about doing something wrong;
- Parents or carers who withdraw their attention from their child, giving the child the 'cold shoulder';
- Parents or carers blaming their problems on their child;
- Parents or carers who humiliate their child, for example, by name-calling or making negative comparisons.

Sexual Abuse & Exploitation

Sexual abuse is any sexual activity with a child. You should be aware that many children and young people who are victims of sexual abuse do not recognise themselves as such. A child may not understand what is happening and may not even understand that it is wrong.

Sexual abuse can have a long-term impact on mental health. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males; women and children are also perpetrators.

Indicators may include:

- Children who display knowledge or interest in sexual acts inappropriate to their age
- Children who use sexual language / have sexual knowledge that you wouldn't expect them to have
- Children who ask others to behave sexually or play sexual games
- Children with physical sexual health problems, including soreness in the genital and anal areas, sexually transmitted infections or underage pregnancy

Child sexual exploitation is a form of sexual abuse where children are sexually exploited for money, power or status. It can involve violent, humiliating and degrading sexual assaults. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Consent cannot be given, even where a child may believe they are voluntarily engaging in sexual activity with the person who is exploiting them. Child sexual exploitation doesn't always involve physical contact and can happen online. A significant number of children who are victims of sexual exploitation go missing from home, care and education at some point.

Indicators may include:

- Children who appear with unexplained gifts or new possessions
- Children who associate with other young people involved in exploitation
- Children who have older boyfriends or girlfriends
- Children who suffer from sexually transmitted infections or become pregnant
- Children who suffer from changes in emotional well-being
- Children who misuse drugs and alcohol
- Children who go missing for periods of time or regularly come home late
- Children who regularly miss school or education or don't take part in education.

Neglect

Neglect is a pattern of failing to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter. It is likely to result in the serious impairment of a child's

health or development. Children who are neglected often also suffer from other types of abuse. Neglect usually indicates a relationship issue between the parent and child.

A key task for staff and volunteers is to record all instances of neglect, however minor. This builds up a picture of the child's lived experience and provides the crucial evidence required at point of referral. There are many different aspects in which neglect can manifest:

- Physical Neglect or Deprivation of Needs
- Medical Neglect
- Supervisory Neglect
- Environmental Neglect
- Educational Neglect
- Emotional Neglect

Emotional Neglect is a parent's failure to respond *enough* to a child's emotional needs; it's a failure to notice, attend to or respond appropriately to a child's feelings. It results in children having difficulty trusting or knowing their own feelings or others because theirs were never validated.

Children who are neglected often also suffer from other types of abuse. It is important that practitioners remain alert and do not miss opportunities to take timely action. However, while you may be concerned about a child, neglect is not always straightforward to identify.

Neglect may occur if a parent becomes physically or mentally unable to care for a child. A parent may also have an addiction to alcohol or drugs, which could impair their ability to keep a child safe or result in them prioritising buying drugs, or alcohol, over food, clothing or warmth for the child. Neglect may occur during pregnancy as a result of maternal drug or alcohol abuse.

Indicators may include:

- Children who are living in a home that is indisputably dirty or unsafe
- Children who are left hungry or dirty
- Children who are left without adequate clothing – e.g. not having a winter coat
- Children who are living in dangerous conditions, i.e. around drugs, alcohol or violence
- Children who are often angry, aggressive or self-harm
- Children who fail to receive basic health care
- Parents who fail to seek medical treatment when their children are ill or are injured

Specific Safeguarding Issues

All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as drug taking, alcohol abuse, deliberately missing education and sexting (also known as **youth produced sexual imagery**) put children in danger.

All staff should be aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but may not be limited to:

- bullying (including cyberbullying);
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;

- sexual violence and sexual harassment;
- sexting (also known as youth produced sexual imagery); and
- initiation/hazing type violence and rituals.

All staff should be clear as to the school's policy and procedures with regards to peer on peer abuse (see appendix 2)

Helping children to recognise risk and access support

A key mechanism for keeping children safe in education is ensuring that they are given an understanding of how to recognise risk and where to go for help when they need it. Giving children and young people an understanding of what is and is not appropriate in professional conduct and in their home, care can improve identification of concerns and reporting about themselves and their peers.

Mission Grove encourages a range of ways for children and young people to report concerns [e.g., including online, worry boxes, and face to face. Using peer support is another way to give children permission to discuss difficult topics and get the help needed.]

[Keeping Children Safe in Education](#) 2023 requires governing bodies and proprietors to ensure that children are taught about safeguarding, including online safety, as part of providing a 'broad and balanced curriculum.' Please see appendix 1 for our child-friendly safeguarding policy, which is shared with all pupils, in an age-appropriate manner.

Children are taught to understand and manage risk through our personal, social, health and economic (PSHE) education and sex and relationships lessons and through all aspects of school life. Our approach is designed to help children to think about risks they may encounter and with the support of staff work out how those risks might be reduced or managed. Children are also reminded regularly about online safety, the risks of sharing content and images online and tackling bullying, including cyber bullying procedures. The school continually promotes an ethos of respect for children and pupils are encouraged to speak to a member of staff of their choosing about any worries they may have.

Relationships Education is compulsory for all pupils receiving primary education and Relationships and Sex Education (RSE) compulsory for all pupils receiving secondary education. Health Education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education (PSHE) continues to be compulsory in independent school. Statutory Guidance: Relationships and sex education (RSE) and health education, which can be found online, has been produced contains information on what schools should do and sets out the legal duties with which schools must comply when teaching Relationships Education, Relationships and Sex Education (RSE) and Health Education.

[Making sense of relationships](#) is an NSPCC resource to support children and young people's development of healthy relationships through comprehensive PSHE lesson plans for KS2-KS4.

Child & Young People's Disclosures to Staff

Mission Grove recognises that those who disclose may do so with difficulty, having chosen carefully to whom they will speak. Accordingly, all staff will handle disclosures with sensitivity.

Children and young people may disclose concerns to staff and may do so knowing that what they are disclosing is a concern, and sometimes they will be unaware that their disclosure will signal

concerns. Wherever possible, staff should make the time and space to listen and understand what the child / young person is disclosing. Staff should not be afraid to respond to children naturally, as they would for any other disclosure, and should respond with compassion and empathy.

Staff cannot promise complete confidentiality as staff must report any disclosure of abuse or harm to a child or young person. However, children, young people and others can be reassured that only those who need to know will be told.

Staff must immediately report any disclosure to the designated safeguarding lead and make a contemporaneous record.

If disclosures are concerning but vague, the DSL or other staff may need to speak to the child further in order to obtain enough information to meet threshold. In these circumstances, DSL and staff should agree how this will take place and the practitioner should use open questions (including, questions starting with 'when', 'where', 'why', 'how', etc).

Especially vulnerable pupils

To ensure that all our pupils receive equal protection we will give special consideration to children who are particularly vulnerable.

Children & Young People Especially Vulnerable:

- Young carers
- Transgender children / young people
- Affected by parental substance misuse, domestic violence or parental mental health needs
- Asylum seekers
- Living away from home
- Vulnerable to being bullied, or engaging in bullying
- Living in temporary accommodation
- Live transient lifestyles
- Living in chaotic and unsupportive home situations
- Vulnerable to discrimination on the grounds of race, ethnicity, religion, disability or sexuality
- At risk of sexual exploitation
- Do not have English as a first language
- At risk of female genital mutilation (FGM)
- At risk of forced marriage
- At risk of being drawn into extremism.

This list provides examples of additional vulnerable groups and is not exhaustive.

Children who need a social worker (Child in Need and Child Protection Plans)

Children may need a social worker due to safeguarding or welfare needs. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health.

Local authorities should share the fact a child has a social worker, and the DSL should hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes, which should be considered as a matter of routine. There are clear powers to share this information under existing duties on both local authorities and schools and colleges to safeguard and promote the welfare of children. Where children need a social worker, this should inform decisions in relation to safeguarding and promoting welfare (i.e. responding to unauthorised absences or missing education episodes and the provision for pastoral and/or academic support).

Children requiring mental health support

We have an important role to play in supporting the mental health and wellbeing of our pupils. Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour and education.

Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Staff, however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

Immediate action should be taken with in response to any mental health concerns about a child that is also a safeguarding concern, through reporting the concern to the DSL as with any other safeguarding concern. The DSL will respond to the report by consulting Children's Social Care in order to establish whether a referral is required, or the situation should be managed by discussion with parents/carers and possibly the offer of early help.

Advice to help identify children in need of extra mental health support, this includes working with external agencies can be found in the [mental health and behaviour in schools guidance](#).

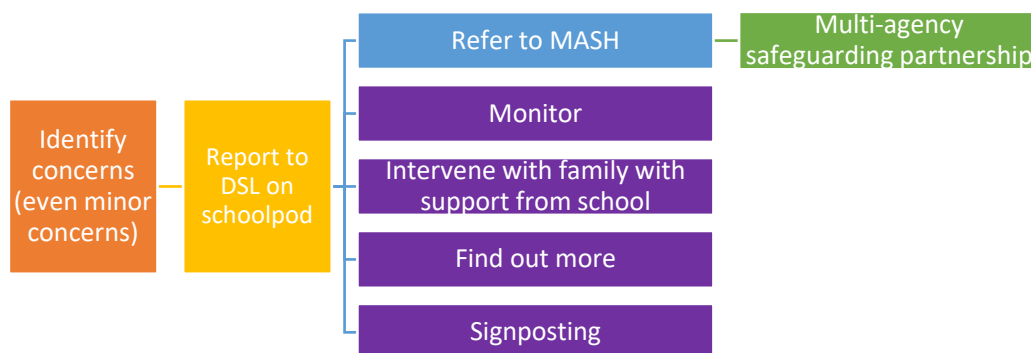

Children with special educational needs & disabilities (SEND)

Children with special educational needs (SEN) and/or disabilities can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group of children, which can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- The potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- Communication barriers and difficulties in overcoming these barriers.

Staff are trained to manage these additional barriers to ensure this group of children are appropriately safeguarded. Staff can recognise the additional risks that children with SEND face online, for example from online bullying, grooming and radicalisation and are confident they have the capacity to support SEND children to stay safe online.

Safeguarding Procedure at Mission Grove

If you are concerned about a child's welfare

There will be occasions when staff may suspect that a pupil may be at risk. The child's behaviour may have changed, their artwork could be concerning, they may write stories or poetry that reveal confusion or distress, or display physical but inconclusive indicators of abuse. In these circumstances, staff will try to give the child/young person the opportunity to talk.

Staff should use the welfare concern form to record these early concerns, with a view to ongoing monitoring and assessment by the DSL, and can be referred to Early Help as required.

Staff Response

Staff will not investigate but will, wherever possible, listen, record and pass on information to the designated safeguarding lead in order that s/he can make an informed decision of what to do next.

Mission Grove Procedures for reporting a concern

- Listen to and take seriously any disclosure or information that a child may be at risk of harm
- Clarify the information by asking open questions (usually beginning with words such as 'what', 'when', 'where', 'how' – in other words, questions that do not predict the answer). Sometimes just repeating the last statement made with a question intonation can keep someone talking.
- Try not to show signs of shock, horror, disbelief or surprise to the child
- Not express feelings or judgements regarding any person alleged to have harmed the child
- Reassure and support the person as far as possible
- Explain that only those who 'need to know' will be told
- Explain what will happen next and keep them informed
- Report your concern as soon as possible to the DSL, definitely by the end of the day
- Make a record of what the child has said/what you have observed (do not ask a child to write a statement) on schoolpod, as soon as possible after the disclosure.
- If for any reason schoolpod is not available, make a written record, including the child's full name and name, your name, the date and time, and full details of your concern.

This should be put in a sealed envelope, marked for the attention any DSL/DDSL and handed to the school office.

Recording

Recording of concerns should take place as close in time to the incident as reasonably possible, by using schoolpod via unique log-ons. There are chromebooks available in each for those members of staff who do not have their own computer. Where concerns are serious, in addition to logging concerns, staff should seek to speak to a DSL immediately either in person or by phone.

DSL Decision-Making

Once concerns are identified and shared with DSLs, DSLs and involved staff will decide together how best to proceed to support the child and to mitigate the risk. DSLs can consult with MASH at any point.

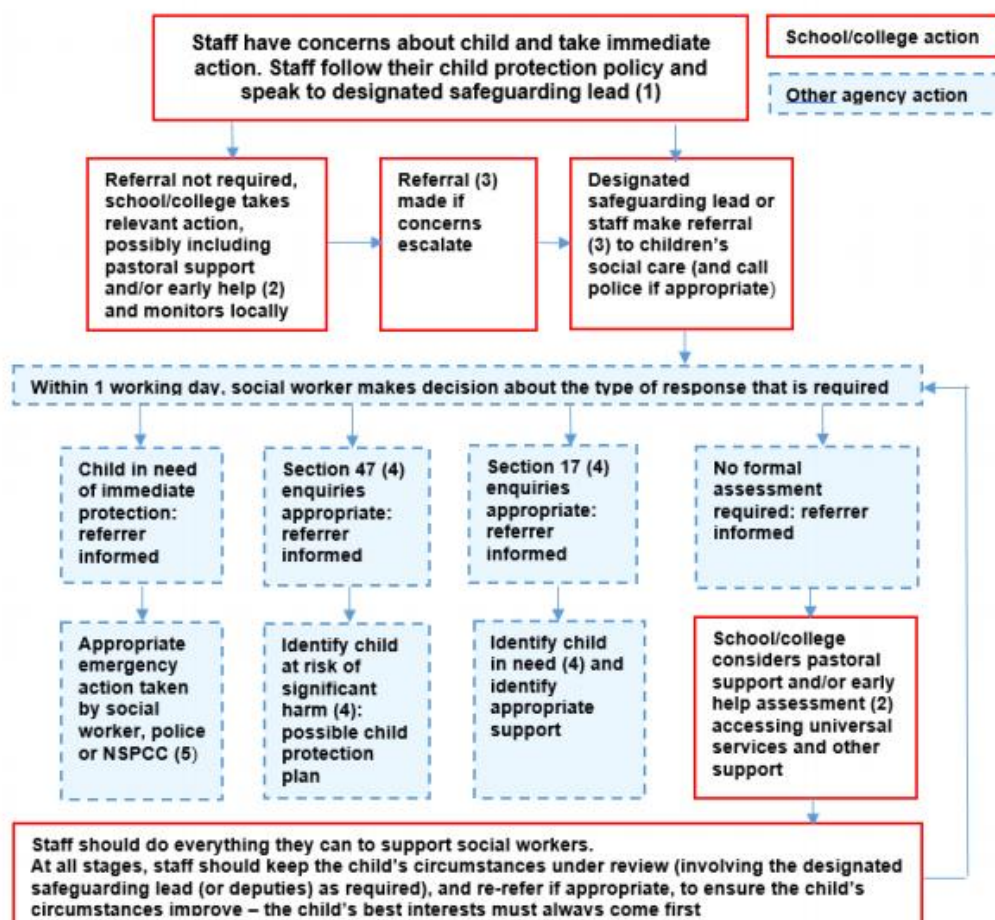

Options for action are:

Pastoral Care	Keeping Children Safe in Education 2023 acknowledges the casework that schools undertake on a pastoral level. This includes managing any support for the child internally via the school's own pastoral support processes. If pastoral staff are engaged, they must work alongside safeguarding staff, and DSLs would take the lead on decisions about progressing a case.
Early Help (MASH)	Schools can refer children and families for early help assessment and support, with the informed consent of parents.
Referral to statutory services (MASH)	<p>A referral must be made to MASH/children's social care (and if appropriate the police) immediately if the child is:</p> <ul style="list-style-type: none">• A child in need; defined under the Children Act 1989 as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled• Suffering, or likely suffering, harm.
Allegation of harm to a child by a practitioner	If the alleged harm to a child is caused by a practitioner or a volunteer, the headteacher should be notified immediately and LADO should be consulted.

Following a number of cases nationally where senior leaders in schools failed to act upon concerns raised by staff, [Keeping Children Safe in Education](#) 2023 emphasises that any member of staff must

contact and/or make a referral to Children's Social Care if they are concerned about a child, if their DSL does not share their views.

Actions where there are concerns about a child

(1) In cases which also involve a concern or an allegation of abuse against a staff member.

(2) Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. Chapter one of Working Together to Safeguard Children provides detailed guidance on the early help process.

(3) Referrals should follow the process set out in the local threshold document and local protocol for assessment. Chapter one of Working Together to Safeguard Children.

(4) Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989. Under section 47 of the Children Act 1989, where a local authority has reasonable cause to suspect that a child is suffering or likely to suffer significant harm, it has a duty to make enquiries to decide whether to take action to safeguard or promote the child's welfare. Full details are in Chapter one of Working Together to Safeguard Children.

(5) This could include applying for an Emergency Protection Order (EPO).

Referrals

Multi-agency Safeguarding Hub (MASH) is Waltham Forest's single point of referral to social care for concerns regarding children, young people and vulnerable adults:

- Early Help (parental consent needed)

- Child in Need
- Child Protection
- Adult Safeguarding

Referrals to the MASH should be made immediately when there is a concern that the child is suffering significant harm or is likely to do so. It is good practice to notify MASH by phone and/or email to discuss the case prior to sending a written referral. This will help determine the level of intervention and will also give children's social care and the police time to decide to come and see the child that same day in school, if deemed necessary.

At Mission Grove the DSL ordinarily takes responsibility for the referral process, in consultation with staff who know the child. Still, there are circumstances where another member of staff must refer without delay:

- If for some reason (e.g., during the summer break), the DSL is not available, the referral should be made without delay by any other member of school staff
- If you disagree with your DSL's decision not to refer a case to MASH, it is your responsibility to refer the case, and to respectfully inform the DSL that you are doing so.

Should another member of staff refer instead, the DSL must be consulted and updated as soon as possible.

Notifying parents

The school will normally seek to discuss any concerns about a pupil with their parents. This must be handled sensitively, and the DSL will make usually contact with the parent in the event of a concern, suspicion or disclosure. Our focus is the safety and wellbeing of the pupil. Therefore, if the school believes that notifying parents could increase the risk to the child or exacerbate the problem, advice will be sought first from Children's Social Care.

Holding children in school after a referral to MASH

Sometimes MASH social workers and police will want to see a child on the day of referral to ensure that they are safe to go home. In such cases, they will ask you to keep the child in school until the visit has taken place. Because it can take time to organize the visit with an available social worker and police officer, sometimes families will be asked to wait at school before a child is released to them, and they may be asked not to see their child during this time. This can be stressful and uncomfortable for both schools and families and sometimes all are kept at school until late in the evening. School should prepare families for the length of time this process can take and treat them with compassion and understanding and make every attempt to facilitate this difficult process.

Schools do not have powers to prevent a child from leaving their school when a parent arrives. As such, if a parent refuses to comply with the request for their child to remain in school until a professional is able to speak to them, the school should inform the parent that they will be alerting emergency services. The school should then inform the social worker and police immediately.

Support for pupils, families and staff

Child abuse is devastating and traumatic for children. Even those parents who hurt their children will be distressed. It can also result in secondary trauma in those staff who are involved in these cases.

We will support pupils, their families, and staff by:

- Taking all concerns and disclosures seriously
- Nominating a link person (usually the DSL) who will keep all parties informed
- Appointing a separate link person where the DSL is the subject of an allegation
- Prioritising mental health and resilience, and accepting that everyone can have a bad day
- Responding sympathetically to any request from pupils or staff for time out to deal with distress
- Maintaining confidentiality and sharing information on a need-to-know basis only with relevant individuals and agencies
- Storing records securely
- Signposting to helplines, counselling or other avenues of external support
- Following procedures in safeguarding, whistleblowing, complaints and disciplinary procedures
- Co-operating fully with relevant statutory agencies.

Information sharing

The [Data Protection Act 2018](#) and [General Data Protection Regulations \(GDPR\) 2016](#) **do not prevent the sharing of information for the purposes of keeping children safe**. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children. See [Data protection in schools 2023](#), guidance developed to support schools with data protection activity, including compliance with GDPR.

When deciding whether information needs to be shared with practitioners within the setting or with other agencies, practitioners should take account of the following principles, bearing in mind that the most important consideration is whether sharing information is likely to support the safeguarding and protection of a child:

- Necessary & Proportionate
- Relevant
- Adequate
- Accurate
- Timely
- Secure
- Recorded

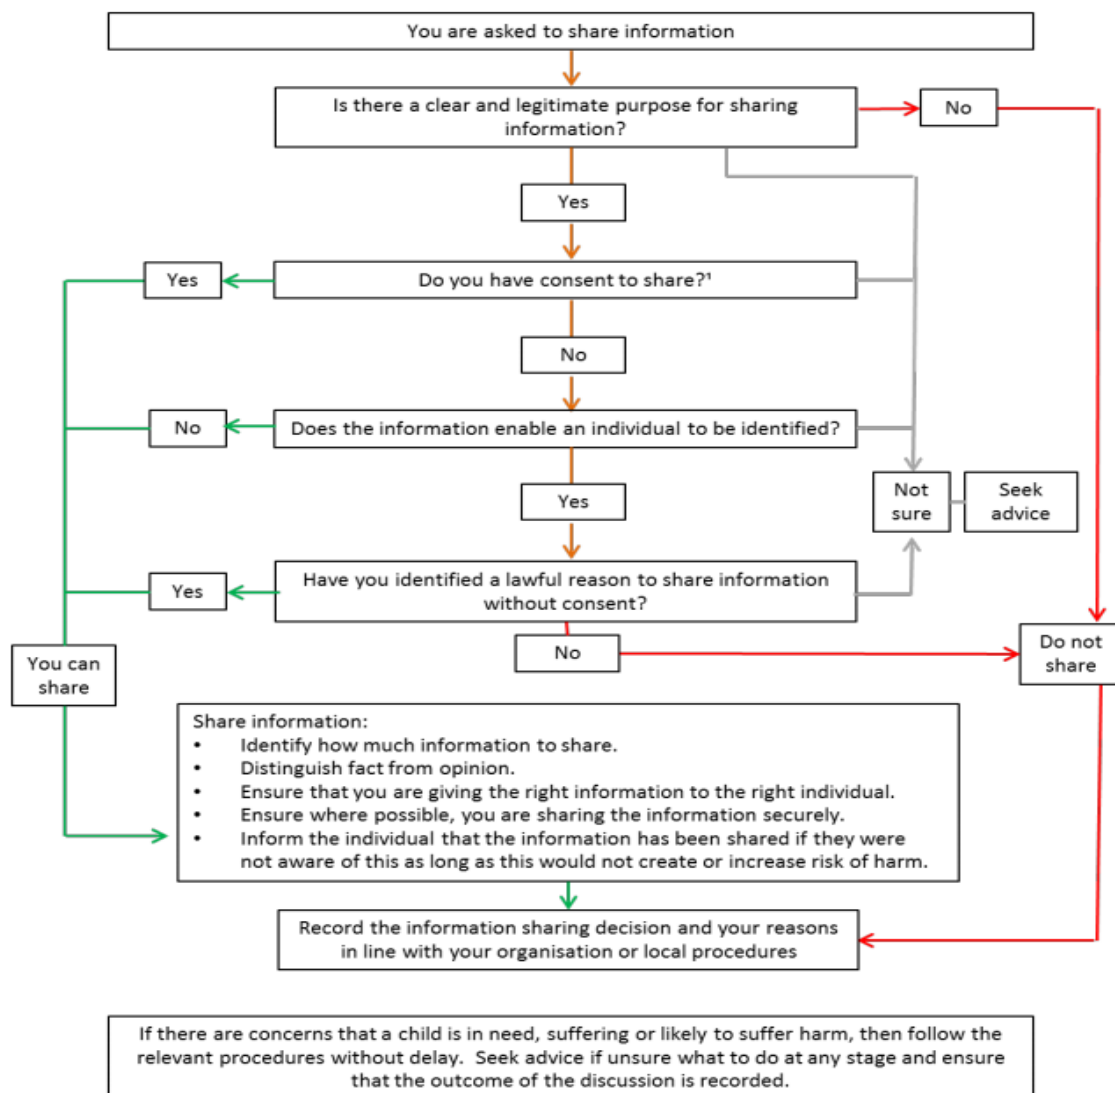

Practitioners should consider when they share information, how and how much they share, and where possible they should be transparent about the fact that they're sharing.

Although the process for deciding whether to share information is the same within and outside the setting, in terms of proportionality and the need to know, sharing information with practitioners from other agencies (even if based in school) needs to be documented. It is reasonable for staff to discuss day-to-day concerns about pupils with colleagues in order to ensure that children's general needs are met in school. However, staff should report all child protection and safeguarding concerns to the DSL or headteacher or – in the case of concerns about the headteacher – to the chair of governors. The person receiving the referral will then decide who else needs to have the information and they will disseminate it on a 'need-to-know' basis.

The DSL will normally obtain consent from the pupil and/or parents to share sensitive information within the school or with outside agencies. Where there is good reason to do so, the DSL may share information *without* consent, and will record the reason for not obtaining consent. If any member of staff receives a request from a pupil or parent to see child protection records, they will refer the request to the data protection officer and the DSL/headteacher.

Every effort will be made to prevent unauthorised access to sensitive information. Portable devices such as mobile phones, laptop computers, tablets or on portable media will use cloud storage.

Flowchart of when and how to share information

If in doubt about sharing, see: [Information sharing: Advice for practitioners providing safeguarding services to children, young people, parents and carers](#) 2018.

Transitions

All schools are responsible for ensuring appropriate transitions from one setting to another. This includes preparing children and welcoming them appropriately and sharing the full pastoral and safeguarding context of a child, required for the new setting to understand behaviours within a full context of experiences by the child – this would also include tried and tested strategies.

The child's safeguarding file will be sent via secure email or by recorded delivery to the named DSL in the new setting.

Practitioners' Code of Conduct

This policy should be read alongside the school's Code of Conduct. Practitioners are in a position of trust and authority and have a duty of care towards the children and young people we work with.

All practitioners are likely to be a **role model** and are expected to act appropriately; this includes:

- Prioritising the welfare of children and young people
- Providing a safe environment for children and young people
- Following principles, policies and procedures and staying within the law
- Challenging all unacceptable behaviour & reporting any breaches of the Code of Conduct immediately

All practitioners must ensure that the **rights of the child** are upheld throughout their practice, including:

- Treating children and young people fairly and without prejudice or discrimination
- Understanding that children and young people are individuals with individual needs
- Respecting differences in gender, sexual orientation, culture, race, ethnicity, disability and religious belief systems, and appreciate that all participants bring something valuable and different
- Challenging discrimination and prejudice
- Encouraging young people & adults to speak out about attitudes / behaviour that makes them uncomfortable.

In forming **appropriate relationships** with children, all practitioners should endeavour to:

- Promote relationships that are based on openness, honesty, trust and respect
- Avoid favouritism or forming exclusive relationships with children
- Be patient and considerate of any individual child's developmental capacity
- Exercise caution when you are discussing sensitive issues with children or young people
- Ensure all contact with children and young people is appropriate and relevant to the work
- Ensure that whenever possible, there is more than one adult present during activities with children and young people, or that the practitioner is in sight of others (e.g., classroom doors open, glass walls, etc)
- Only provide personal care in an emergency and make sure there is more than one adult present if possible, unless personal care is explicitly part of your role and you have been trained to do this safely.

Practitioners should always demonstrate respect towards children, including:

- Listening to and respecting children
- Valuing and taking children's contributions seriously, actively involving them in planning activities
- Respecting a young person's right to personal privacy as far as possible

- If breaking confidentiality in order to follow child protection procedures, it is important to explain this to the child or young person at the earliest opportunity, and to keep them updated as to what is happening.

Inappropriate / unacceptable behaviour in practitioners, that must always be reported, includes:

- Allowing concerns or allegations to go unreported
- Taking unnecessary risks
- Smoking, consuming alcohol or use illegal substances
- Developing inappropriate relationships with children and young people, including any private communications
- Making inappropriate promises to children and young people
- Engaging in behaviour that is in any way abusive, including having any form of sexual contact with a child or young person.
- Letting children and young people have your personal contact details (mobile number, email or postal address) or have contact with them via a personal social media account
- Acting in a way that can be perceived as threatening or intrusive
- Patronising, belittling children and young people or making sarcastic, insensitive, derogatory or sexually suggestive comments or gestures to, or in front of, children and young people, including sexual staring.

If practitioners fail to act within the above guidelines, or fail to report breaches, they will be subject to disciplinary procedures. Depending on the seriousness of the situation:

- Practitioners may be asked to leave the school, temporarily or permanently
- School may make a report to statutory agencies such as the police and/or the local authority child protection services or LADO.

All reports should be made in confidentiality to the Headteacher.

Staff training

It is important that all staff have training to enable them to recognise the possible signs of abuse, neglect, exploitation and radicalisation and to know what to do if they have a concern. New staff, volunteers and governors, including supply staff, will receive a safeguarding induction:

- the school's child protection and safeguarding policy
- the staff behaviour policy (code of conduct)
- the identity and role of the DSL and all Deputy DSLs
- the school's behaviour policy
- the school's safeguarding response to children who go missing from education.

All staff, including the headteacher (unless the headteacher is the DSL), volunteers and governors will receive appropriate and regularly updated safeguarding and child protection training and thematic updates as required (at least annually) during inset days and regular discussions at staff meetings, to provide them with the requisite skills and knowledge to safeguard children effectively in line with statutory guidance and any requirements of the local safeguarding partnership.

The DSL will attend training for newly appointed DSLs and refresher training within a two-year period. In addition, the DSL will update their knowledge and skills at least annually to keep up with any developments relevant to their role and will be supported to access inter-agency training as part of their continuing professional development.

All staff should be aware that abuse, neglect and safeguarding issues are rarely stand-alone events that can be covered by one definition or label. In most cases, multiple issues will overlap one another. All staff should also be aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of these environments. All staff but especially the DSL and DDSL should consider whether children are at risk of abuse or exploitation in situations outside their families. All staff will be made aware of the increased risk of abuse to certain groups, including children with special educational needs and disabilities, looked after children, previously looked after children, young carers and risks associated with specific safeguarding issues including child sexual exploitation, child criminal exploitation, peer on peer abuse, sexual harassment and sexual violence in school, extremism, female genital mutilation and forced marriage; and will receive training in relation to keeping children safe online.

In addition, the headteacher and other school leaders and at least one governor will attend safer recruitment training and the school will ensure that there are at least two school leaders and/or governors that have attended safer recruitment training within the past three years.

Allegations against staff and volunteers (ASV)

To manage allegations against professionals, every Local Authority appoints a Designated Officer (LADO). The LADO should be alerted to all cases in which it is alleged that a person who works with children has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates they may pose a risk of harm to children
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children

The term “professional” in this context includes paid employees, volunteers, casual/agency staff and self-employed workers who will have contact with children as a part of their role. The LADO ensures that all allegations or concerns about professionals or adults working or volunteering with children are recorded appropriately, monitored and progressed in a timely and confidential way. The LADO is involved from the initial phase of the allegation through to the conclusion of the case. The LADO provides advice and guidance to employers and voluntary organisations, liaising with the police and other agencies and monitoring the progress of cases to ensure that they are dealt with as quickly as possible, consistent with a thorough and fair process.

The LADO is available for consultation via email lado@walthamforest.gov.uk or by telephone discussion 0208 496 3646 for anyone who has a concern that a person who works or volunteers in a capacity that brings them into contact with children in Waltham Forest, may pose a safeguarding risk. Any allegations or concerns MUST be reported to the LADO within 24 hours (or one working day) of it coming to notice.

Low level concerns should always be undertaken in consultation with the LADO in congruence with local procedures and guidance. The consultation process allows for concerns to be evaluated objectively and to ascertain whether or not similar concerns may have been raised by a previous employer but not met the threshold for investigation. Whilst the LADO will only record those allegations which appear to meet the threshold for consideration within these procedures, the employer should record any concern that arises in respect of a member of their staff.

In normal circumstances the LADO will be contacted by the headteacher. It is important to note that anyone can contact the LADO if they are concerned about a person’s conduct with children. In Waltham Forest the LADO will accept a referral from any person who wishes to report a concern that meets the criteria above.

If there are any concerns that a member of staff (including supply teachers) or volunteer has caused harm (emotional, physical, sexual, neglect) to a child, this represents an allegation against staff and volunteers. All allegations against staff (including supply teachers) and volunteers must be reported to the Headteacher in the first instance. The person against whom the allegation is made should not be notified at this point. If the allegation is against the headteacher the concerns must be reported to the chair of governors and the LADO.

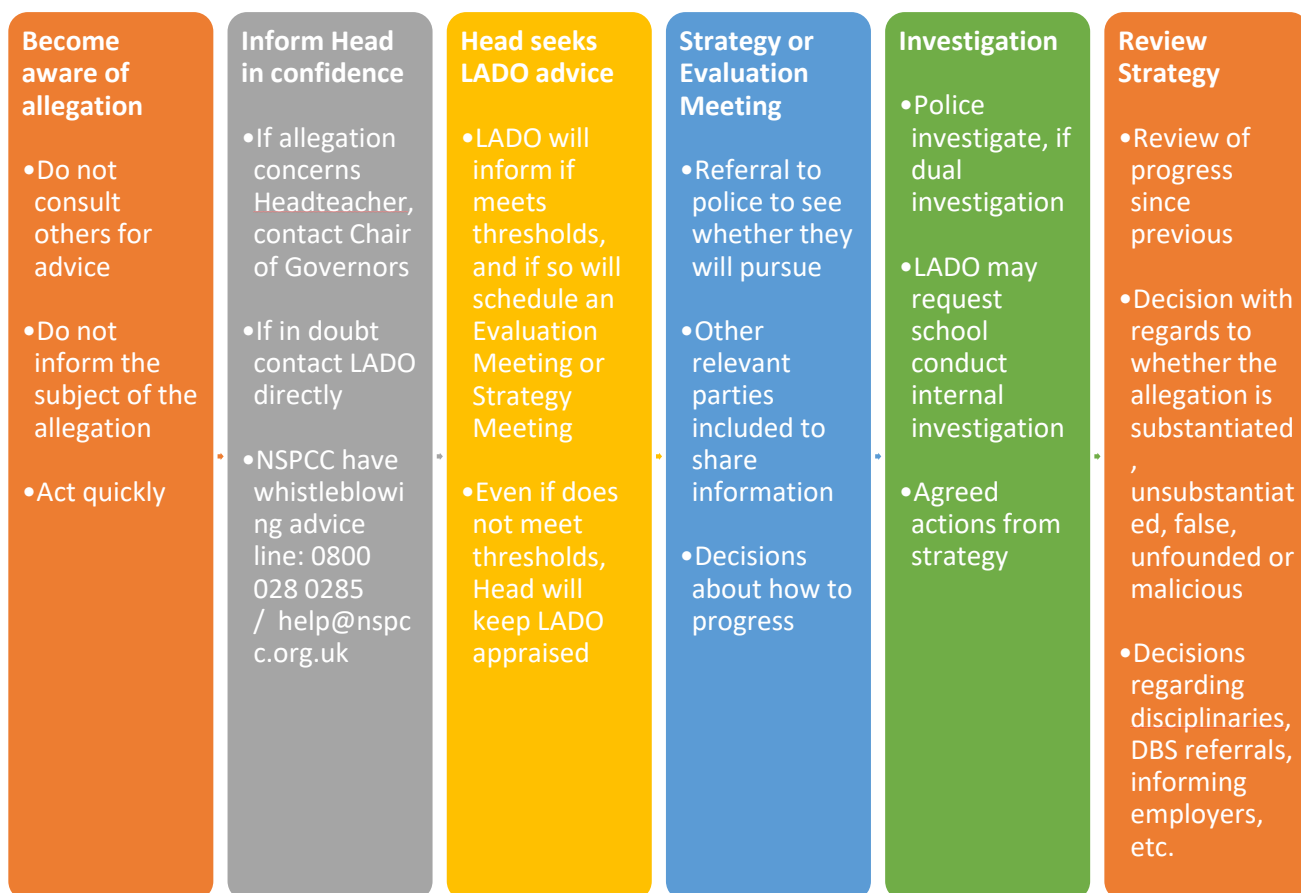

You should:

- report it to the headteacher as soon as possible, however trivial it may seem;
- maintain confidentiality and guard against publicity while an allegation is being considered or investigated and follow local information sharing protocols

You should not:

- attempt to deal with the situation yourself;
- make assumptions, offer alternative explanations or diminish the seriousness of the behaviour or alleged incidents;
- keep the information to yourself or promise confidentiality;
- take any action that might undermine any future investigation or disciplinary procedure, such as interviewing the alleged victim or potential witnesses, or informing the alleged perpetrator or parents or carers.

The full procedures for dealing with allegations against staff can be found in Part 4 of [Keeping Children Safe in Education](#) 2023, and Part 7 of the London Child Protection Procedures, which can be found online.

Whistleblowing

The school's whistleblowing policy enables staff to raise concerns or allegations, initially in confidence, and for a sensitive enquiry to take place. Whistleblowing is 'making a disclosure in the public interest' and occurs when a worker (or member of the wider school community) raises a concern about danger or illegality that affects others.

All staff are made aware of the duty to raise concerns about the attitude or actions of staff in line with the school's Code of Conduct / Whistleblowing policy. Staff are expected to report all concerns about poor practice or possible child abuse by colleagues - including what may seem minor contraventions of the school's staff behaviour policy (code of conduct) – to the headteacher; to facilitate proactive and early intervention in order to maintain appropriate boundaries and a safe culture that protect children and reduce the risk of serious abuse in school.

Concerns or complaints about the headteacher should be reported to the chair of governors. For those who feel unable to raise these concerns internally, for whatever reason, they can contact the local authority designated officers (LADOs) who have oversight of allegations against practitioners and volunteers in the borough: lado@walthamforest.gov.uk or 0208 496 3646.

Alternatively, staff can call the NSPCC whistleblowing helpline on: 0800 028 0285 (line is available from 8:00 AM to 8:00 PM, Monday to Friday) or email: help@nspcc.org.uk.

Complaints procedure

Mission Grove's complaints procedure will be followed where a pupil or parent raises a concern about poor practice towards a pupil that initially does not reach the threshold for child protection / LADO action.

Poor practice examples include unfairly singling out a pupil or attempting to humiliate them, bullying or belittling a pupil or discriminating against them in some way. Complaints are managed by the Headteacher, or an allocated member of the senior leadership team and governors.

Complaints from staff are dealt with under the school's complaints and disciplinary and grievance procedures. Complaints which escalate into a child protection concern / LADO referral will automatically be managed under these procedures in school.

Please see appendix 7 for further details of the school's policy and procedures.

Prevention

A planned curriculum as part of a whole school approach

The most effective preventative education programme is through a whole school approach that prepares pupils for life in modern Britain. The school has a clear set of values and standards, and these are upheld and demonstrated throughout all aspects of school life. This is underpinned by the school's behaviour policy and pastoral support system, and by a planned programme of evidence-based content delivered through the whole curriculum. Tackling issues such as:

- healthy and respectful relationships;
- what respectful behaviour looks like;
- consent;
- gender roles, stereotyping, equality;
- body confidence and self-esteem;
- prejudiced behaviour;
- that sexual violence and sexual harassment is always wrong.

This is delivered, through planned, high-quality, Relationship Education and Personal, Social, Health and Education (PSHE).

Mission Grove has a child-friendly safeguarding policy which is shared with all pupils, in an age-appropriate manner (see appendix 1).

Good practice allows children an open forum to talk things through. Such discussions can lead to increased safeguarding reports. Children are made aware of the processes to raise their concerns or make a report and how any report will be handled. This should include processes when they have a concern about a friend or peer.

Visitors & Collection

Mission Grove will only release children into the care of individuals who have been notified to us by the parent, and will ensure that children do not leave the premises unsupervised, unless the child is in Year 5 or 6 and written permission has been granted by the parent. Mission Grove will take all reasonable steps to prevent unauthorised persons entering the premises, and has an agreed procedure for checking the identity of visitors.

Code of Conduct

This policy should be read alongside the Protocol for Staff Members and Code of Conduct Policy..

Professional boundaries and behaviour, including clear expectations and support of children and adult behaviour alike, helps provide children with a sense of safety. Clear boundaries and expectations also mitigate against and prevent allegations against professionals.

All professionals working with children should take care to model good behaviour by presenting themselves appropriately, both in physical attire and appearance, and in behaviour and conduct.

Mobile phones and cameras

Staff are allowed to bring their personal phones to school for their own use, but will limit such use to non-contact time when pupils are not present. Staff members' personal phones will remain in their lockers or cupboards during contact time with pupils.

Staff will not take pictures or recordings of pupils on their personal phones, tablets or cameras.

We will follow the General Data Protection Regulation and Data Protection Act 2018 when taking and storing photos and recordings for use in the school.

Staff Disclosures

Staff are required to disclose any convictions, cautions, court orders, reprimands and warnings that may affect their suitability to work with children (whether received before or during their employment at the setting).

Single Central Record

Mission Grove maintains a single central record of pre-appointment checks, commonly known as the single central record.

The single central record must cover the following people:

- **ALL staff**, including teacher trainees on salaried routes, agency and third party supply staff who work the setting

The single central record must indicate whether the following checks have been carried out or certificates obtained, and the date on which each check was completed/certificate obtained:

- Identity check (guidelines can be found on the GOV.UK website)
- Barred list check
- Enhanced DBS check/certificate a prohibition from teaching check
- Further checks on people who have lived or worked outside the UK
- Professional qualifications check, where required
- Right to work in the UK check

For agency and third party supply staff, Mission Grove will also include whether written confirmation has been received that the employment business supplying the member of supply staff has carried out the relevant checks and obtained the appropriate certificates, and the date that confirmation was received and whether any enhanced DBS certificate check has been provided in respect of the member of staff.

Safer Recruitment

Mission Grove pays full regard to Part 3 of the statutory guidance [Keeping Child Safe in Education \(2023\)](#); please refer to appendix 3 and our safer recruitment policy.

We ensure that all appropriate measures are applied in relation to everyone who works in the school/setting and who is therefore likely to be perceived by the children as a safe and trustworthy adult. This includes volunteers, supervised volunteers and staff employed by contractors. Safer recruitment practice includes scrutinising applicants, verifying identity and academic or vocational qualifications, obtaining personal references, checking previous employment history and ensuring

that a candidate has the health and physical capacity for the job. It also includes undertaking interviews and checks with the [Disclosure and Barring Service](#) (DBS).

Staff Induction

All new staff, including newly qualified teachers and support staff, will receive induction training. The induction process will include staff code of conduct and a good understanding of child protection responsibilities and procedures and expectations.

All staff (including temporary staff, volunteers, supervised volunteers and staff employed by contractors) are provided with the schools'/setting's safeguarding policy and informed of school's/setting's safeguarding arrangements on induction. They must confirm in writing that the policy has been read and understood.

Compliance

Staff should complete an acknowledgement form to confirm that they have read and understood the safeguarding policy and how they should implement it in practice.

All staff and volunteers will:

- Fully comply with the school's/setting's policies and procedures, attend appropriate training and inform the designated safeguarding lead of any concerns.
- Staff will be supported by the Designated Safeguarding Lead (DSL) and their deputies. The DSL will be supported by the safeguarding link governor.
- The DSL will know how to access the online [London Child Protection Procedures](#).
- Contact the Waltham Forest Multi Agency Safeguarding Hub (MASH) if in any doubt about whether to refer.

Any member of staff affected by issues arising from concerns for children's welfare or safety can seek support from the DSL.

Maintaining a Safe Site

Visitors & Site security

Visitors to the school including contractors, are asked to sign in and are given an identity badge, which confirms they have permission to be on site. Parents who are simply delivering or collecting their children do not need to sign in. All visitors are expected to observe the school's safeguarding and health and safety regulations to ensure children in school are kept safe.

The headteacher will exercise professional judgement in determining whether any visitor should be escorted or supervised while on site. Social workers attending school to carry out statutory work with children must be allowed to do so, if they supply appropriate identification. Should the school have concerns about their identity, they should speak to the social worker's manager and request an email confirmation.

The school requires visitors to show DBS certificates as a condition to entry, and aims to give visitors adequate notice of this requirement. However, the school is aware that having sight of DBS certificate is not enough reason for allowing a visitor full, unsupervised access to the school and pupils – this is done in conjunction with other reasonable checks and vetting.

Behaviour Management

Our behaviour policy is set out in a separate document and is reviewed regularly by the governing body. It is shared with all staff before they start working with children as part of their induction. The policy is transparent to staff, parents and pupils.

Use of reasonable force

All staff should be familiar with the statutory guidance for schools on [The Use of Force in Schools](#) 2015. When working with children with SEND, staff should have a full working knowledge of [Reducing the Need for Restraint and Physical Intervention with Children with SEND](#) 2019. [Keeping Children Safe in Education](#) 2023 highlights that there are circumstances when it is appropriate for staff in schools and colleges to use reasonable force to safeguard children and young people. This can range from guiding a child to safety by the arm, to more extreme circumstances such as breaking up a fight or where a young person needs to be restrained to prevent violence or injury. 'Reasonable' in these circumstances means 'using no more force than is needed'. The use of force may involve either passive physical contact, such as standing between pupils or blocking a pupil's path, or active physical contact such as leading a pupil by the arm out of the classroom.

Staff should deploy every possible strategy to prevent the need for physical intervention. Those strategies would include de-escalation whenever there is a threat of violence or aggression towards an individual or property; communicating calmly with children; using non-threatening verbal and body language; helping children to recognise their own 'triggers' and 'early warning signs', and distracting or helping children to see a positive way out of a difficult situation. However, the school supports staff to intervene physically and to use reasonable force when all those strategies are unsuccessful in calming a situation and a risk of violence, serious damage to property or disruption to the school remains. Staff should always be able to demonstrate that any such intervention is reasonable, proportionate and necessary in the circumstances, is used for the shortest possible period, deploys the minimum force that is necessary and is never used as a sanction.

Searching Children

In accordance with DfE guidance [Searching, screening and confiscation – in schools 23](#), school staff can search a pupil for any item if the pupil agrees.

The headteacher and any member of staff authorised by the headteacher also has a statutory power to search pupils or their possessions, where they have reasonable grounds for suspecting that the pupil may have one or more of the following prohibited items in their possession:

- knives or weapons;
- alcohol;
- illegal drugs;
- stolen items;
- tobacco and cigarette papers;
- fireworks;
- pornographic images;
- indecent images of children;
- any article that a member of staff reasonably suspects has been, or is likely to be, used to commit an offence, or to cause personal injury to, or damage to the property of, any person (including the pupil).

The headteacher and authorised staff can also search for any item banned by the school rules which has been identified in the rules as an item which may be searched for. When designating a member of staff to undertake searches under these powers, the headteacher should consider whether the member of staff requires any additional training to enable them to carry out their responsibilities.

School staff can confiscate any prohibited item found as a result of a search. They can also confiscate any item they consider harmful or detrimental to school discipline.

Searching staff must be the same gender as the pupil being searched; and there must be a witness (also a staff member) and, if possible, they should be the same sex as the pupil being searched. There is a limited exception to this rule. You can carry out a search of a pupil of the opposite sex to you and / or without a witness present, but only where you reasonably believe that there is a risk that serious harm will be caused to a person if you do not conduct the search immediately and where it is not reasonably practicable to summon another member of staff.

What the law says:

- The person conducting the search may not require the pupil to remove any clothing other than outer clothing.
- ‘Outer clothing’ means clothing that is not worn next to the skin or immediately over a garment that is being worn as underwear but ‘outer clothing’ includes hats; shoes; boots; gloves and scarves.
- ‘Possessions’ means any goods over which the pupil has or appears to have control – this includes desks, lockers and bags.
- A pupil’s possessions can only be searched in the presence of the pupil and another member of staff, except where there is a risk that serious harm will be caused to a person if the

search is not conducted immediately and where it is not reasonably practicable to summon another member of staff.

- The power to search without consent enables a personal search, involving removal of outer clothing and searching of pockets; but not an intimate search going further than that, which only a person with more extensive powers (e.g. a police officer) can do.
- The DSL must be aware of the requirement for children to have an Appropriate Adult where an intimate search is being considered/conducted. Further information in respect of the role and duties of an appropriate adult can be found in Police and Criminal Act 2020

Extended school and off-site arrangements

All extended and off- site activities are subject to a risk assessment to satisfy health and safety and safeguarding requirements. When our pupils attend off-site activities, including day and residential visits, we will check that effective child protection, Health & safety, and whistleblowing arrangements are in place.

Where extended school activities are provided by and managed by the school, the school's child protection policy and procedures apply. If other organisations provide services or activities on the school site, the school will check that those organisations have appropriate procedures in place, including safer recruitment procedures. Good practice indicates schools should seek written copies of external providers child protection policies and procedures. In addition, ensuring there are appropriate arrangements in place to liaise should there be any child protection concerns raised.

Photography and images

To protect pupils, we will:

- Seek their consent for photographs or video images to be taken, including consent for the reasons for which photos will be used and how long they will be kept as per Data Protection legislation.
- Seek parental consent for the same.
- Ensure pupils are appropriately dressed
- Encourage pupils to tell us if they are worried about any photographs/images that are taken of them.

Furthermore, when using images for publicity purposes (e.g. on our website or in newspapers or publications), we will:

- Avoid naming children when possible
- If it is necessary to name children, use first names rather than surnames
- If children are named, avoid using their image
- Establish whether the image will be retained for further use, where and for how long
- Ensure that images are stored securely and used only by those authorised to do so.

For the protection of pupils and staff, only school owned equipment will be used to record, and store images taken by staff or volunteers on the school site or during offsite school activities including residential visits.

Parents are welcome to take photographs of their own children only during school activities, subject to other restrictions notified to parents in advance in writing or verbally (e.g. parents may be asked not to take photographs during concerts/performances in order not to distract children who are performing or other audience members). Parents must not publish (including on social media) photographs of other children inadvertently captured during school events without the express permission of the parents of those children.

There may be occasions when parents are requested not to take photographs where a child is subject to social care procedures or who requires protection of their identity and whereabouts. They will not be singled out; in this instance, a blanket ban will be imposed.

Visiting practitioners who work directly with children are subject to the same restrictions as school staff and volunteers in respect of recording and storing images of children.

Online Safety

Children and young people commonly use electronic equipment including mobile phones, tablets and computers daily to access the internet and share content and images via social networking sites such as Facebook, Twitter, MSN, Tumblr, Snapchat and Instagram. Those technologies and the internet are a source of fun, entertainment, communication and education. Unfortunately, however, some adults and young people will use those technologies to harm children and the use of technology has become a significant component of many safeguarding issues. Child sexual exploitation; radicalisation; sexual predation: technology often provides the platform that facilitates harm.

The breadth of issues within online safety is considerable, but can be categorised into four areas of risk:

- content: being exposed to illegal, inappropriate or harmful material; for example, pornography, fake news, racist or radical and extremist views;
- contact: being subjected to harmful online interaction with other users; for example, commercial advertising as well as adults posing as children or young adults; and
- conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images, or online bullying.
- commerce: risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel your pupils, students or staff are at risk, please report it to the Anti-Phishing Working Group (<https://apwg.org/>).

Chatrooms and social networking sites are the more obvious sources of inappropriate and harmful behaviour and pupils are not allowed to access those sites in school. Many pupils own or have access to hand held devices and parents are encouraged to consider measures to keep their children safe when using the internet and social media at home and in the community.

The school's online safety policy explains how we try to keep pupils safe in school and protect and educate pupils in the safe use of technology. The school has appropriate filters and monitoring systems in place to protect children from potentially harmful online material. We will complete an annual review of our online safety policy which will be supported by an annual risk assessment. This will consider and evaluate any emerging risks our students face when participating in online activity.

Cyberbullying and sexting by pupils will be treated as seriously as any other type of bullying and will be managed through our anti-bullying procedures (see 'Sexting' below). Serious incidents may be managed in line with our child protection procedures.

All staff receive online safety training and are trained to be vigilant about and to report any concerns about risk to children online in the same way that they notice and report offline concerns. The school's online safety co-ordinator is: John Garlick.

Online communication between staff and pupils

Staff must be aware of the acceptable use policy and this should give advice regarding personal online activity, use of social networking and electronic communication. Under no circumstances is it acceptable for staff to communicate via personal devices / social media with pupils. Staff found to be in breach of these rules may be the subject of a referral to the Designated Officer in the Local Authority and/or may be subject to disciplinary action.

Online filters and monitoring

All staff have been given information about the provisions in place. Any potential concerns should be reported to Katie Jennings, Headteacher, who undertakes an annual review to ensure harmful and inappropriate content is blocked.

Governors/Trustees and proprietors regularly review the filters and monitoring systems in place to ensure effectiveness.

Education at home

Wherever possible the school will seek to have a meeting with the family and LA when there is a request for elective home education to ensure that there is a smooth transition for the pupil. Schools will notify the Local Authority when parents inform them a child is to be home educated.

Advice to support schools and colleges has been produced for online learning at home which is named 'Safeguarding and remote education during coronavirus (COVID-19)', which can be found online.

Specific Safeguarding Issues

Children and the court system

Children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. There are two age appropriate guides to support children 5-11-year olds and 12-17 year olds.

The guides explain each step of the process and support and special measures that are available. Making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. The Ministry of Justice has launched an online child arrangements information tool with clear and concise information on the dispute resolution service. This may be useful for some parents and carers.

Children missing from education

Full attendance at school is important to the wellbeing of all pupils and enables them to access the opportunities made available to them at school. Non-attendance is also an indicator in all forms of abuse. The attendance policy is set out in a separate document and is reviewed regularly by the governing body. The school operates in accordance with statutory guidance [Children Missing Education \(DfE 2016\)](#). All children, regardless of their circumstances, are entitled to an efficient, full-time education which is suitable to their age, ability, aptitude and any special educational needs they may have.

A child going missing from education is a potential indicator of abuse and neglect, including sexual abuse or exploitation, child criminal exploitation, radicalisation or mental health problems. Staff will also be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

Effective information sharing between parents, schools and local authorities is critical to ensuring that all children of compulsory school age are safe and receiving suitable education. Attendance, absence and exclusions are closely monitored, and same day checks are undertaken on the first morning of absences.

The DSL will monitor unauthorised absence and take appropriate action including notifying the local authority, particularly where children go missing repeatedly and/or are missing for periods during the school day.

A conversation should take place with the Home Education Lead in the local authority BACME service if DSL has concerns about children whose parents wish to elect to home educate. See the Attendance policy.

Children with family members in prison

Children and young people who have a family member in prison should be supported appropriately. Approximately 200,000 children have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation and poor mental health. Mission Grove will seek to support pupils in this position through pastoral care, early help and discussions with parents/carers and other family members as appropriate.

For more information, see: www.prisonersfamilies.org/ The Prisoners' Families Helpline is 0808 808 2003.

Children who are looked after or were previously looked after

Children who were previously looked after, such as those adopted or under Special Guardianship Orders, potentially remain vulnerable. The school ensures that staff have the necessary skills and understanding to keep children who are looked after and children who were previously looked after safe and ensures that appropriate staff have information about a child's looked after status and care arrangements, including the level of authority delegated to the carer by the authority looking after the child.

The designated teacher for children who are looked after and previously looked after and the DSL hold details of the social workers for all children who are looked after or were previously looked after; and the name and contact details of the Local Authority's virtual head for children who are looked after.

Children who run away or go missing from home or care

Mission Grove recognises that children who run away or go missing (particularly repeatedly) and are thus absent from their normal residence are potentially vulnerable to abuse and neglect, which may include sexual abuse or exploitation and child criminal exploitation. It could also indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation or risk of forced marriage.

[Keeping Children Safe in Education](#) 2023 highlights that [Statutory Guidance on Children who Run Away or go Missing from Home or Care](#) 2014 requires that every child or young person who runs away or goes missing must be offered a Return Home Interview (RHI) within a period of 72 hours of their return. RHIs are intended to ascertain the factors that triggered the young person's absence. Those factors may include difficulties at home, in school and in the community. The short timescale of 72 hours is imposed in order to ensure that the RHI remains relevant to the young person and enables any required action to be initiated at the earliest opportunity. RHIs are undertaken by practitioners who are independent in order to facilitate a discussion with the young person that is as open as possible. As soon as the Local Authority receives notification that a young person has gone missing from home or care, a letter will be sent to parents/carers seeking their consent to an RHI with their son/daughter. Direct contact will then be made with parents/carers and the young person to plan for the interview. In order to fulfil the timescale of within 72 hours, it is essential that all opportunities to interview young people including times during the school day are utilised.

Child Criminal Exploitation (CCE)

Waltham Forest has taken a public health approach to children and young people's criminal exploitation by organized criminal groups (OCGs) and gangs. CCE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual and/or criminal activity:

- in exchange for something the victim needs or wants, and/or
- for the financial advantage or increased status of the perpetrator or facilitator.
- through violence or the threat of violence

The victim may have been criminally exploited even if child does not view themselves as a victim. CCE does not always involve physical contact; they can also occur using technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (see section below on County Lines), forced to shoplift or pickpocket or to threaten other young people. Victims of CCE can be of any gender. Children and young people are often unwittingly drawn into criminal exploitation through the offer of friendship, relationships and care, gifts, drugs, alcohol, money and accommodation. Some of the following can be indicators of CCE.

- children who appear with unexplained gifts or new possessions
- children who associate with other young people involved in exploitation
- children who suffer from changes in emotional well-being
- children who misuse drugs and alcohol
- children who go missing for periods of time or regularly come home late
- children who regularly miss school or education or do not take part in education.

Child Sexual Exploitation (CSE)

CSE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity:

- in exchange for something the victim needs or wants, and/or
- for the financial advantage or increased status of the perpetrator or facilitator.

The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; they can also occur using technology. Victims of CSE can be of any gender, under the age of 18, including 16 and 17 years old who can legally consent to have sex. It can include both contact and non-contact sexually activity and may occur without the child or young person's immediate knowledge. Some of the indicators of CCE can also be indicators of CSE, as can:

- children who have older boyfriends/girlfriends
- children who suffer from sexually transmitted infections or become pregnant

Sexual exploitation is a serious crime and can have a long-lasting adverse impact on a child's physical and emotional health. It may also be linked to other criminal activity including trafficking and illegal drugs. Drug networks or gangs groom and exploit children and young people to carry drugs and

money from urban areas to suburban and rural areas, market and seaside towns. The Department for Education have produced: [Child sexual exploitation: definition and guide for practitioners](#)

County Lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of “deal line”. Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move [and store] drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims.

Children can be targeted and recruited into county lines in several locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children’s homes and care homes. Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as ‘plugging’, where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

One of the ways of identifying potential involvement in county lines are missing episodes (both from home and school), when the victim may have been trafficked for the purpose of transporting drugs and a referral to the [National Referral Mechanism](#) should be considered.

All concerns about children suspected to be at risk of or involved in county lines will be reported to the DSL as with any other safeguarding concern. The DSL will respond to the report by consulting Children’s Social Care in order to establish whether a referral is required. The Home Office has released guidance: [County lines: criminal exploitation of children and vulnerable adults](#)

Domestic abuse

Waltham Forest has adopted the Safe & Together model of working with children affected by domestic abuse. This includes working in partnership with the abused parent and holding the perpetrating parent to account. Domestic abuse is defined as any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to:

- psychological
- physical
- sexual
- financial
- emotional abuse.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a

result. Domestic abuse affecting young people can also occur within their personal relationships, as well as in the context of their home life.

All concerns about children being affected by domestic abuse will be reported to the DSL as with any other safeguarding concern. The DSL will respond to the report by consulting Children's Social Care in order to establish whether a referral is required, or the situation should be managed by discussion with parents/carers and possibly the offer of early help.

The school works in partnership with Police and Children's Services to support pupils who are affected by incidents of domestic violence and abuse. This scheme is called [Operation Encompass](#). It helps police and schools work together to provide emotional and practical help to children. The system ensures that when police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will forward the information securely to the DSL before the child or children arrive at school the following day.

On receipt of any such notification, the headteacher and/or DSL will ensure that teachers and other staff directly in contact with affected children support them with due care and sensitivity. This ensures that the school has up to date relevant information about the child's circumstances and can enable support to be given to the child according to their needs. This information is managed and stored with the utmost sensitivity and discretion consistent with all other confidential safeguarding records.

Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247.

Additional advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

- [NSPCC- UK domestic-abuse Signs Symptoms Effects](#)
- [Refuge what is domestic violence/effects of domestic violence on children](#)
- Safe Lives which can be found here: safelives.org.uk/

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The designated safeguarding lead (and any deputies) refer any concerns to the Local Housing Authority so they can raise/progress concerns at the earliest opportunity. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property.

Whilst referrals and or discussion with the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

So-called 'honour based' abuse

So-called 'honour-based' abuse (HBA) encompasses crimes which have been committed to protect or defend the honour of a family and/or community. Such crimes include Female Genital Mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving 'honour' often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take.

Staff will be alert to the possibility of a child being at risk of HBA or already having suffered HBA.

Regardless of the motivation, staff will record and report any concerns about a child who might be at risk of HBA to the Designated Safeguarding Lead as with any other safeguarding concern. The DSL will consider the need to make a referral to the Police, and/or Children's Social Care as with any other child protection concern; and may also contact the Forced Marriage Unit for advice as necessary.

FGM

Female genital mutilation (FGM) is the collective name given to a range of procedures involving the partial or total removal of the external female genitalia for non-medical reasons or other injury to the female genital organs. It has no health benefits and harms girls and women in many ways. The practice, which is most carried out without anaesthetic, can cause intense pain and distress and long-term health consequences, including difficulties in childbirth and risks to the unborn child. FGM is carried out on girls of any age, from new-born to older teenagers and adult women, so school staff are trained to be aware of risk indicators. Many such procedures are carried out abroad and staff should be particularly alert to suspicions or concerns expressed by female pupils about going on a long holiday during the summer vacation period.

It is illegal to practice in the UK and/or anyone involved in taking girl outside of the UK to have FGM carried out will be punished under the [FGM Act 2003](#) and [Serious Crime Act 2015](#). LBWF follows a comprehensive approach comprising care, prevention, enforcement, through promoting protection measures and safeguarding young girls from FGM.

Teachers are subject to a statutory duty defined by Section 5B of the [Female Genital Mutilation Act 2003](#) (as inserted by section 74 of the [Serious Crime Act 2015](#)) to report to the Police personally where they discover (e.g., by means of a disclosure) that an act of FGM appears to have been carried out on a girl who is aged under 18. This is known as mandatory reporting. Teachers in that situation will record their concerns and inform the DSL, who will support the teacher in making a direct report to the Police.

Forced marriage

A forced marriage is a marriage in which a female (and sometimes a male) does not consent to the marriage but is coerced into it. Coercion may include physical, psychological, financial, sexual and emotional pressure. It may also involve physical or sexual violence/harm and abuse. A forced marriage is not the same as an arranged marriage. In an arranged marriage, which is common in several cultures, the families of both spouses take a leading role in arranging the marriage but the choice of whether to accept the arrangement remains with the prospective spouses.

Children may be married at a very young age, and well below the age of consent in England. School staff should be particularly alert to suspicions or concerns raised by a pupil about being taken abroad and not being allowed to return to England. Since June 2014 forcing someone to marry has become a criminal offence in England and Wales under the [Anti-Social Behaviour, Crime and Policing Act 2014](#).

Prevent: Protecting Children from Radicalisation & Extremism

All schools and colleges are subject to a duty under section 26 of the [Counter-Terrorism and Security Act 2015](#) (the CTSA 2015), in the exercise of their functions, to have 'due regard to the need to prevent people from being drawn into terrorism'. This duty is known as the [Prevent duty](#).

It requires schools to:

- teach a broad and balanced curriculum which promotes spiritual, moral, cultural, mental and physical development of pupils and prepares them for the opportunities, responsibilities and experiences of life and must promote community cohesion
- be safe spaces in which children / young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of terrorist ideology, and learn how to challenge these ideas
- be mindful of their existing duties to forbid political indoctrination and secure a balanced presentation of political issues

Some children are vulnerable to extremist ideology and radicalisation. Protecting children from the risk of radicalisation is part of the school's wider safeguarding duties and is similar in nature to protecting children from other forms of harm and abuse. As such, the DSL is responsible for the school's strategy for protecting children from those risks.

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups. Extremism is the vocal or active opposition to fundamental values, including the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces. Even very young children have been exposed, in rare circumstances, to extremism at home and elsewhere including online. Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

As children get older, they look for adventure and excitement and they may start to ask questions about their identity and belonging. During that stage of their development they are vulnerable to extremist groups that may claim to offer answers, identity and a social network apparently providing a sense of belonging. Many of those extremist groups make sophisticated use of the internet and social media to target and groom young people. Young people who feel isolated or disaffected in some way are particularly vulnerable to radicalisation as they are other forms of abuse and exploitation.

The school has defined responsibilities to ensure that children are safe from terrorist and extremist material when accessing the internet in school. During the process of radicalisation, it is possible to intervene to prevent vulnerable people being radicalised. Mission Grove is committed to preventing pupils from being radicalised and drawn into any form of extremism or terrorism. The school promotes the values of democracy, the rule of law, individual liberty, mutual respect and tolerance of those with different faiths and beliefs by providing pupils with opportunities through the curriculum to discuss issues of religion, ethnicity and culture and learn how to discuss and debate points of view; and by ensuring that all pupils are valued and listened to within school.

Mission Grove recognises the importance of providing a safe space for children to discuss controversial issues; and building their resilience and the critical thinking skills they need in order to

challenge extremist perspectives. However, the DSL or DDSL will make appropriate referrals to the Police PREVENT team and Channel programme in respect of any pupil whose behaviour or comments suggest that they are vulnerable to being radicalised and drawn into extremism and terrorism in order to ensure that children receive appropriate support.

Channel is a voluntary, confidential support programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism.

Prevent referrals may be considered at the Local Channel panel. The Channel panel is made up of multi-agency professionals who discuss the individuals referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required. The DSL may be asked to attend the Channel panel to help with this assessment. An individual's engagement with the programme is entirely voluntary at all stages.

Guidance on Channel is available at: [Channel guidance](#).

The Home Office has developed three e-learning modules:

- [Prevent awareness](#) e-learning offers an introduction to the Prevent duty.
- [Prevent referrals](#) e-learning supports staff to make Prevent referrals that are robust, informed and with good intention.
- [Channel awareness](#) e-learning is aimed at staff who may be asked to contribute to or sit on a multi-agency Channel panel.
- [Educate Against Hate](#) is a government website designed to support schoolteachers and leaders to help them safeguard their students from radicalisation and extremism.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability.

Similarly, radicalisation can occur through many different methods (such as social media) and settings (such as the internet).

However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised.

As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a referral to the Channel programme.

Mission Grove is committed to providing a secure environment for pupils vulnerable to grooming and exploitation into extremist organisations. Staff will be alert to issues including:

- Disclosures by pupils of their exposure to the extremist actions, views or materials of others outside of school/setting, such as in their homes or community groups
- Graffiti symbols, writing or art work promoting extremist messages or images
- Pupils accessing extremist material online, including through social networking sites
- Parental reports of changes in behaviour, friendship or actions and requests for assistance
- Use of extremist or 'hate' terms to exclude others or incite violence
- Intolerance of difference, whether secular or religious or, in line with our equalities policy, views based on, but not exclusive to, gender, disability, homophobia, race, colour or culture

By continually developing our leadership and accountability practices, staff training opportunities (primarily the Home Office developed WRAP Training), referral systems and management of those referrals, we strive to demonstrate a pro-active and diligent approach to this aspect of our responsibilities as educators and safe-guarders.

Bullying and Peer on peer abuse

Our school recognises that some children may abuse their peers and any incidents of peer on peer abuse will be managed in the same way as any other child protection concern and will follow the same procedures. We will seek advice and support from other agencies as appropriate.

Peer on peer abuse can manifest itself in many ways. This may include bullying (including cyber bullying), physical abuse, sexual violence / sexual harassment, 'up-skirting', 'sexting' or initiation / hazing type violence and rituals. We do not tolerate any harmful behaviour in school and will take swift action to intervene where this occurs. We use lessons to help children understand, in an age-appropriate way, what abuse is and we encourage them to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable.

Please see appendix 2 for full details of the school's policy and procedures.

Serious violent crime

All staff are made aware of indicators that children are at risk from or are involved with serious violent crime; and are trained to record and report any concern about children at risk of or involved in perpetrating serious violence as with any other safeguarding concern.

Indicators may include increased absence, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts could also indicate that children have been approached by or are involved with individuals associated with criminal gangs.

Faith & Belief-based Abuse

Faith is not a protective factor where abuse is concerned. Indeed, sometimes faith can create a screen that prevents would-be protectors from admitting/believing that abuse is occurring.

There is no agreed definition of or consensus about the concept of 'child abuse linked to faith or belief.' Child abuse linked to faith or belief can be separated into four areas as follows;

- Abuse that occurs as a result of a child being accused of witchcraft or of being a witch
- Abuse that occurs as a result of a child being accused of being 'possessed by spirits', that is, 'spirit possession'
- Ritualistic abuse
- Satanic abuse

Where does it take place?

Child abuse linked to faith and/or belief is not confined to one faith, nationality or ethnic community. Examples have been recorded worldwide among Europeans, Africans, Asians and elsewhere as well as in Christian, Muslim, Hindu and pagan faiths among others.

Not all those who believe in witchcraft or spirit possession harm children. Data on numbers of known cases suggests that only a small minority of people with such beliefs go on to abuse children.

Common factors that put a child at risk of harm

- Belief in evil spirits: this is commonly accompanied by a belief that the child could 'infect' others with such 'evil'. The explanation for how a child becomes possessed varies widely, but includes through food that they have been given or through spirits that have flown around them;
- Scapegoating because of a difference: it may be that the child is being looked after by adults who are not their parents (i.e. privately fostered), and who do not have the same affection for the child as their own children;
- Rationalizing misfortune by attributing it to spiritual forces and when a carer views a child as being 'different' because of disobedience, rebelliousness, over-independence, bedwetting, nightmares, illness or because they have a perceived or physical abnormality or a disability; Disabilities involved in documented cases included learning disabilities, mental ill health, epilepsy, autism, a stammer and deafness;
- Changes and / or complexity in family structure or dynamics: there is research evidence (see Stobart, Child Abuse linked to Accusations of Spirit Possession - see related links) that children become more vulnerable to accusations of spirit possession following a change in family structure (e.g. a parent or carer having a new partner or transient or several partners). The family structure also tended to be complex so that exact relationships to the child were not immediately apparent. This may mean the child is living with extended family or in a private fostering arrangement (see Children Living Away from Home Procedure, Private Fostering - see related link). In some cases, this may even take on a form of servitude;
- Change of family circumstances for the worse: a spiritual explanation is sought in order to rationalise misfortune and the child is identified as the source of the problem because they have become possessed by evil spirits. Research evidence is that the family's disillusionment very often had its roots in negative experiences of migration;
- Isolation and immigration: In the vast majority of identified cases in the UK to date, the families were first or second generation migrants suffering from isolation from extended family, a sense of not belonging or feeling threatened or misunderstood. These families can also have significantly unfulfilled expectations of quality of life in the UK;
- Parental difficulties: a parent's mental ill health appears to be attributed to a child being possessed in a significant minority of cases. Illnesses typically involved include post-traumatic stress disorder, depression and schizophrenia.

The law in relation to child abuse linked to faith and belief

There are sufficient existing laws within the UK with which to prosecute those responsible for child abuse linked to faith and/or belief thereby negating any need for further more specific offences.

What to do if you suspect a child is at risk from abuse linked to faith and/or belief

Concerns about a child's welfare can vary greatly in terms of their nature and seriousness. If you have concerns about a child, you should ask for help. You should discuss your concerns with your manager, a named or designated professional or a designated member of staff. For example;

For schools/settings staff (both teaching and non-teaching) concerns should be reported via the school's designated safeguarding lead. The safeguarding lead will usually decide whether to make a referral to children's social care

For early years practitioners, the Early Years Foundation Stage sets out that providers should ensure that they have a practitioner who is designated to take a lead responsibility for safeguarding children who should liaise with local statutory children's services agencies.

Private fostering arrangements

A [private fostering](#) arrangement occurs when someone other than a parent or a close relative cares for a child for a period of 28 days or more, with the agreement of the child's parents. It applies to children under the age of 16, or under 18 if the child is disabled. Private fostering occurs in all cultures, including British culture and children may be privately fostered at any age.

Most privately fostered children remain safe and well, but safeguarding concerns have been raised in some cases, so it is important that schools are alert to possible safeguarding issues, including the possibility that a child has been trafficked into the country.

By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must notify Children's Social Care as soon as possible. When the school becomes aware of a private fostering arrangement for a pupil that has not been notified to Children's Social Care, the school will encourage parents and private foster carers to notify Children's Social Care and will share information with Children's Social Care as appropriate.

Appendices

Appendix 1: Child-friendly safeguarding policy

Safeguarding at Mission Grove Primary School

Our school has a safeguarding policy for all adults who come into our school. This child friendly policy is designed for you. We created this policy to help you decide what could be a 'problem' and where to get help and support. There may be times when you want to talk to someone in school about a problem that might be upsetting you. We have people in school who are specially trained to help you, it is important that you know where to get help if you are worried or unhappy about something:

Safeguarding means that all adults in school will do their best to:

- Protect you from harm
- Make sure nothing stops you from being happy
- Make sure you are safely looked after
- Make sure you have the best life chance

The safeguarding leads in school are:

- Miss Jennings
- Mrs Atwal
- Dr Darling
- Ms. Khan
- Mrs Foxcroft

During the holiday clubs, the safeguarding leads are:

- Mr Taylor
- Ms. Swinhoe

If in doubt, talk to someone. There are many staff at school for you to talk to and they will help support you.

Tell someone so we can help

If you feel scared, worried or just want to talk what can you do?

*Is someone making you feel unhappy, did someone do something
you don't like?*

Who can you talk to?

– the safeguarding leads are
Miss Jennings
Ms. Atwal
Ms. Khan
Mr Darling & Mrs Foxcroft

Who else?

– Mrs Collier or Ms. Filsan
– The teachers or support
staff
– Any adult you feel
comfortable talking to.

Use your Zones of regulation

Are you feeling
Red?
Blue?
Yellow?
Green?

Where can you go?

The offices
The dovecote or nest
on north
The friend room on south

Appendix 2: Bullying and Peer on Peer abuse

Mission Grove believes that all children have a right to attend school and learn in a safe environment. Children should be free from harm, both from adults and other students in the school.

Children may be harmed by other children or young people; research suggests that 30% of child abuse is perpetrated by those under 18.

All staff recognise that children can abuse their peers and are trained to understand and implement the school's policy and procedures regarding peer on peer abuse. All peer on peer abuse is unacceptable and will be taken seriously. Advice and guidance has been produced [Preventing and Tackling Bullying](#)

It is most likely to include, but is not limited to:

- bullying (including cyberbullying);
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- sexual violence, such as rape, assault by penetration and sexual assault;
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse;
- sexting including pressuring another person to send a sexual image or video content (also known as youth produced sexual imagery);
- Up skirting, is where someone takes a picture under a person's clothing (not necessarily a skirt) without their permission and or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is a criminal offence, which comes under The Voyeurism (Offences) Act 2019. Anyone of any gender, can be a victim;
- teenage relationship abuse - defined as a pattern of actual or threatened acts of physical, sexual or emotional abuse, perpetrated against a current or former partner;
- initiation/hazing - used to induct newcomers into an organisation such as sports team or school groups by subjecting them to a series of potentially humiliating, embarrassing or abusing trials which promote a bond between them; and
- prejudiced behaviour - a range of behaviours which causes someone to feel powerless, worthless or excluded and which relates to prejudices around belonging, identity and equality, prejudices linked to disabilities, special educational needs, ethnic, cultural and religious backgrounds, gender and sexual identity.

Bullying is a very serious issue that can cause children considerable anxiety and distress. At its most serious level, bullying can have a disastrous effect on a child's well-being and in very rare cases has been a feature in the suicide of some young people. All incidences of bullying, including cyber-bullying and prejudice-based bullying should be reported and will be managed through the [school/college]'s anti-bullying procedures.

The subject of bullying is addressed at regular intervals in PSHE education. All members of staff receive a copy of the school's behaviour policy, which contains the anti-bullying procedures, as part of their induction and are trained to be aware of the harm caused by bullying and to respond to all incidents of bullying and peer on peer abuse proactively.

Abuse is abuse and will not be tolerated, minimised or dismissed as 'banter'; 'just having a laugh'; 'part of growing up'; 'boys being boys'; or 'girls being girls'. It is important for the school to consider the wider environmental factors and context within which peer on peer abuse occurs.

The school will also consider the potential for the impact of the incident to extend further than the school's local community (e.g. for images or content to be shared around neighbouring schools) and for a victim (or alleged perpetrator) to become marginalised and excluded by both online and offline communities.

There is also the strong potential for repeat victimisation in the future if abusive content continues to exist somewhere online. Online concerns can be especially complicated. Support is available from The UK Safer Internet Centre at 0344 381 4772 and helpline@saferinternet.org.uk and the Internet Watch Foundation at <https://www.iwf.org.uk/>

Sexual violence/harm/and sexual harassment

Sexual violence/harm, sexual harm and sexual harassment can occur between two children of any age and gender and between children of the opposite or the same gender. They can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children. Staff are aware of sexual violence and the fact children can, and sometimes do, abuse their peers in this way. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physically and verbally) and are never acceptable.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, likely, adversely affect their educational attainment. While it is important that all victims are taken seriously and offered appropriate support, staff are trained to be aware that it is more likely that girls, children with SEND and LGBT children are at greater risk of sexual violence and sexual harassment and more likely it will be perpetrated by boys.

When referring to sexual violence/harm, this policy uses the definitions of sexual offences in the Sexual Offences Act 2003 as follows:

- Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.
- Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity

and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

- A child under the age of 13 can never consent to any sexual activity
- A child under 18 cannot consent to any sexual activity with a person in a position of trust
- The age of consent is 16.
- Sexual intercourse without consent is rape.

Sexual harassment is 'unwanted conduct of a sexual nature' that can occur online and offline. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment. Online sexual harassment may happen on its own or as part of a wider pattern of sexual harassment and/or sexual violence/harm.

Sexual harassment creates an atmosphere that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence/harm. Mission Grove therefore recognises the importance of recognising the nature of, identifying and challenging sexual violence/harm and sexual harassment in its wider approach to safeguarding and promoting the welfare of children; through policies; and through the curriculum.

All staff recognise the importance of:

- making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up;
- not tolerating or dismissing sexual violence or sexual harassment as "banter", "part of growing up", "just having a laugh" or "boys being boys"; and
- challenging behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

The school will respond to reports in accordance with Part 5 of [Keeping Children Safe in Education 2023](#). Schools may also find it useful to refer to the [Farrer peer on peer abuse toolkit](#). All responses to reports of sexual violence/harm will be subject to an immediate risk and needs assessment undertaken by the DSL (or a deputy), using their professional judgement and supported by other agencies, such as children's social care and the Police. The need for a risk and needs assessment in relation to reports of sexual harassment will be considered on a case-by-case basis.

The response to a report of sexual violence or sexual harassment

The school will respond to reports in accordance with Part 5 of [Keeping Children Safe in Education 2022](#). Schools may also find it useful to refer to the [Farrer peer on peer abuse toolkit](#). All responses to reports of sexual violence will be subject to an immediate risk and needs assessment undertaken by the DSL (or a deputy), using their professional judgement and supported by other agencies, such as children's social care and the Police. The need for a risk and needs assessment in relation to reports of sexual harassment will be considered on a case-by-case basis.

The initial response to a report from a child is important. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe.

A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

If staff have a concern about a child or a child makes a report to them, they should follow the referral process. As always, if staff are in any doubt as to what to do they should speak to the designated safeguarding lead (or a deputy).

Risk Assessment

- The risk and needs assessment will consider:
 - the victim, especially their protection and support;
 - the alleged perpetrator/s (if she/he/they attend the same school/college); and
 - all the other children (and, if appropriate, adult students and staff) at the school or college, especially any actions that are appropriate to protect them.
- The DSL or DDSL should ensure they are engaging with children's social care and specialist services as required.
- Police are notified when a crime may have occurred.
- Where there has been a report of sexual violence, it is likely that professional risk assessments by social workers and or sexual violence specialists will be required.

Action following a report of sexual violence, harm and/ or sexual harassment - what to consider

What to consider?

Mission Grove will carefully consider any report of sexual violence and/or sexual harassment. The designated safeguarding lead (or deputy) is likely to have a complete safeguarding picture and be the most appropriate person to advise on the school's initial response. Important considerations will include:

- the wishes of the victim in terms of how they want to proceed. This is especially important in the context of sexual violence and sexual harassment. Victims should be given as much control as is reasonably possible over decisions regarding how any investigation will be progressed and any support that they will be offered. However, if the victim asks the school not to tell anyone about the sexual violence or sexual harassment, the DSL (or a deputy) will have to balance the victim's wishes against their duty to protect the victim and other children. It is likely to be justified and lawful to share the information if doing so is in the public interest, e.g. to protect the victim and other young people from harm and to promote the welfare of children;
- the nature of the alleged incident(s), including: whether a crime may have been committed and consideration of harmful sexual behaviour;
- the ages of the children involved;
- the developmental stages of the children involved;
- any power imbalance between the children. For example, is the alleged perpetrator significantly older, more mature or more confident? Does the victim have a disability or learning difficulty?;
- if the alleged incident is a one-off or a sustained pattern of abuse;
- whether there are ongoing risks to the victim, other children, adult students or school/college staff;
- informing parents/carers (unless this would put the victim at greater risk);

- only sharing information with those staff who need to know in order to support the children involved and/or be involved in any investigation
- other related issues and wider context.

As always when concerned about the welfare of a child, all staff will act in the best interests of the child. In all cases, Mission Grove will follow general safeguarding principles as per Keeping Children Safe in Education. **Immediate** consideration should be given as to how best to support and protect the victim and the alleged perpetrator (and any other children involved/impacted).

Children sharing a classroom - initial considerations following a report of sexual violence

Any report of sexual violence is likely to be traumatic for the victim. However, reports of rape and assault by penetration are likely to be especially difficult regarding the victim and proximity with the alleged perpetrator is likely to be especially distressing. Whilst the school establishes the facts of the case and starts the process of liaising with Children's Social Care and the Police, the alleged perpetrator will usually be removed from any classes they share with the victim. Consideration will also be given to how best to keep the victim and alleged perpetrator a reasonable distance apart on school premises and on transport to and from the school, where appropriate. These actions are in the best interests of both children and should not be perceived to be a judgment on the guilt of the alleged perpetrator.

For other reports of sexual violence and sexual harassment, the proximity of the victim and alleged perpetrator and considerations regarding shared classes, sharing school premises and transport, will be considered immediately. In all cases, the wishes of the victim, the nature of the allegations and the protection of all children in the school will be especially important when considering any immediate actions.

Youth produced sexual imagery (YPSI) or 'sexting'

The school will act in accordance with advice endorsed by DfE [Sexting in schools and colleges: responding to incidents and safeguarding young people](#) (UK Council for Child Internet Safety 2017). All incidents of youth produced sexual imagery (YPSI) will be dealt with as safeguarding concerns. The primary concern always will be the welfare and protection of the young people involved. Young people (under 18) who share sexual imagery of themselves or their peers are breaking the law. Still, authorities will avoid criminalising young people unnecessarily.

All incidents of YPSI should be reported to the DSL. If there is a YPSI issue in relation to a device (e.g., mobile phone, tablet, digital camera), the member of staff will secure the device (i.e., it should be confiscated). This is consistent with DfE advice [Searching, Screening and Confiscation - Advice for headteachers, school staff and governing bodies](#) 2018. Staff will not look at (unless directed to do so by police), copy or print any indecent images as this would be a criminal offence. The confiscated device will be passed immediately to the DSL. The DSL will discuss the concerns with appropriate staff and speak to young people involved as appropriate. Parents/carers will be informed at an early stage and involved in the process unless there is good reason to believe that involving parents would put the young person at risk of harm. If, at any point in the process, there is concern that a young person has been harmed or is at risk of harm a referral will be made to Children's Social Care and/or the Police via the MASH immediately. The Police will always be informed when there is reason to believe that indecent images involve sexual acts and any child in the imagery is under 13 years of age.

Options to manage the report

Mission Grove will consider every report on a case-by-case basis. When to inform the alleged perpetrator will be a decision that should be carefully considered. Where a report is going to be made to children's social care and/or the police, then, as a general rule, the school will speak to the relevant agency and discuss next steps and how the alleged perpetrator will be informed of the allegations. However, as per general safeguarding principles, this does not stop the school taking immediate action to safeguard the children, where required.

There are four likely scenarios for the school to consider when managing any reports of sexual violence and/or sexual harassment.

1. Manage internally
 - In some cases of sexual harassment, for example, one-off incidents, the school may take the view that the children concerned are not in need of early help or statutory intervention and that it would be appropriate to handle the incident internally, perhaps through utilising behaviour and bullying policies and by providing pastoral support.
2. Early help
 - In line with point 1 above, the school may decide that the children involved do not require statutory interventions but may benefit from early help. Early help means providing support as soon as a problem emerges, at any point in a child's life. Providing early help is more effective in promoting the welfare of children than reacting later. Early help can be particularly useful to address nonviolent harmful sexual behaviour and may prevent escalation of sexual violence.
3. Referrals to children's social care
 - Where a child has been harmed, is at risk of harm, or is in immediate danger, the school will make a referral to local children's social care.
 - At the referral to children's social care stage, the school will generally inform parents or carers, unless there are compelling reasons not to (if informing a parent or carer is going to put the child at additional risk). Any such decision should be made with the support of children's social care.
 - If a referral is made, children's social care will then make enquiries to determine whether any of the children involved are in need of protection or other services.
 - Where statutory assessments are appropriate, the school (especially the designated safeguarding lead or a deputy) should be working alongside, and cooperating with, the relevant lead social worker. Collaborative working will help ensure the best possible package of coordinated support is implemented for the victim and, where appropriate, the alleged perpetrator and any other children that require support.
 - Mission Grove will not wait for the outcome (or even the start) of a children's social care investigation before protecting the victim and other children in the school. It will be important for the designated safeguarding lead (or a deputy) to work closely with children's social care (and other agencies as required) to ensure any actions the school takes do not jeopardise a statutory investigation.
 - In some cases, children's social care will review the evidence and decide a statutory intervention is not appropriate. The school (generally led by the designated safeguarding lead or a deputy) is prepared to refer again if they believe the child remains in immediate danger or at risk of harm. If a statutory assessment is not appropriate, the designated safeguarding lead (or a deputy) will consider other support mechanisms such as early help, specialist support and pastoral support.
4. Reporting to the police

- Any report to the police will generally be in parallel with a referral to children's social care (as above).
- Where a report of rape, assault by penetration or sexual assault is made, the starting point is this should be passed on to the police. Whilst the age of criminal responsibility is ten, if the alleged perpetrator is under ten, the starting principle of reporting to the police remains. The police will take a welfare, rather than a criminal justice, approach.
- At this stage, the DSL will generally inform parents or carers unless there are compelling reasons not to, for example, if informing a parent or carer is likely to put a child at additional risk. In circumstances where parents or carers have not been informed, it will be especially important that the school is supporting the child in any decision they take. This should be with the support of children's social care and any appropriate specialist agencies
- Where a report has been made to the police, the school should consult the police and agree what information can be disclosed to staff and others, in particular, the alleged perpetrator and their parents or carers. They should also discuss the best way to protect the victim and their anonymity.
- In some cases, it may become clear very quickly, that the police (for whatever reason) will not take further action. In such circumstances, it is important that the school continue to engage with specialist support for the victim as required.

Whatever the response, it should be under-pinned by the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated.

All concerns, discussions, decisions and reasons for decisions should be recorded on schoolpod.

Ongoing response: Safeguarding and supporting the victim

The following principles are based on effective safeguarding practice and should help shape any decisions regarding safeguarding and supporting the victim:

- Consider the age and the developmental stage of the victim, the nature of the allegations and the potential risk of further abuse. Schools should be aware that, by the very nature of sexual violence and sexual harassment, a power imbalance is likely to have been created between the victim and alleged perpetrator.
- The needs and wishes of the victim should be paramount (along with protecting the child) in any response. It is important they feel in as much control of the process as is reasonably possible. Wherever possible, the victim, if they wish, should be able to continue in their normal routine. Overall, the priority should be to make the victim's daily experience as normal as possible, so that the school is a safe space for them.
- The victim should never be made to feel they are the problem for making a report or made to feel ashamed for making a report.
- Consider the proportionality of the response. Support should be tailored on a case-by-case basis.

Safeguarding and supporting the alleged perpetrator

The following principles are based on effective safeguarding practice and should help shape any decisions regarding safeguarding and supporting the alleged perpetrator:

- The school will have a difficult balancing act to consider. On one hand they need to safeguard the victim (and all other children and staff at the school) and on the other hand provide the alleged perpetrator with an education, safeguarding support as appropriate and implement any disciplinary sanctions.
- A child abusing another child may be a sign they have been abused themselves
- It is important to remember that, as a child, any alleged perpetrator is entitled to, deserving of, and should be provided with, a high level of support to help them understand and overcome the reasons for their behaviour and help protect other children by limiting the likelihood of them abusing again.
- Consider the age and the developmental stage of the alleged perpetrator and nature of the allegations. Any child will likely experience stress as a result of being the subject of allegations and/or negative reactions by their peers to the allegations against them.
- Consider the proportionality of the response. Support (and sanctions) should be considered on a case-by-case basis. An alleged perpetrator may potentially have unmet needs (in some cases these may be considerable) as well as potentially posing a risk of harm to other children. Harmful sexual behaviour in young children may be (and often are) a symptom of either their own abuse or exposure to abusive practices and or materials. Advice should be taken, as appropriate, from children's social care, specialist sexual violence services and the police.
- It is important that if the alleged perpetrator does move to another educational institution (for any reason), that the new educational institution is made aware of any ongoing support needs and where appropriate, potential risks to other children and staff. The designated safeguarding lead should take responsibility to ensure this happens as well as transferring the child protection file.

Discipline and the alleged perpetrator

With regard to the alleged perpetrator, disciplinary action can be taken whilst other investigations by the police and/or children's social care are ongoing. The fact that another body is investigating or has investigated an incident does not in itself prevent a school from coming to its own conclusion, on the balance of probabilities, about what happened, and acting accordingly. The school would consider if, by taking any action, they would prejudice an investigation and/or any subsequent prosecution. Careful liaison with the police and/or children's social care will help the school make a determination. It will also be important to consider whether there are circumstances that make it unreasonable or irrational for the school to reach their own view about what happened while an independent investigation is considering the same facts.

Working with parents and carers

The school will, in most instances, engage with both the victim's and the alleged perpetrator's parents or carers when there has been a report of sexual violence (this might not be necessary or proportional in the case of sexual harassment and should be considered on a case-by-case basis).

The exception to this rule is if there is a reason to believe informing a parent or carer will put a child at additional risk. The school will carefully consider what information they provide to the respective parents or carers about the other child involved and when they do so. In some cases, children's social care and/or the police will have a very clear view and it will be important for the school to work with relevant agencies to ensure a consistent approach is taken to information sharing.

It is good practice for the school to meet the victim's parents or carers with the victim present to discuss what arrangements are being put in place to safeguard the victim and understand their wishes in terms of support they may need and how the report will be progressed.

It is also good practice for the school to meet with the alleged perpetrator's parents or carers to discuss any arrangements that are being put into place that impact the alleged perpetrator, such as, for example, moving them out of classes with the victim and what this means for their education. The reason behind any decisions should be explained. Support for the alleged perpetrator should be discussed.

The designated safeguarding lead (or a deputy) would generally attend any such meetings. Consideration to the attendance of other agencies should be considered on a case-by-case basis.

Parents and carers may well struggle to cope with a report that their child has been the victim of an assault or is alleged to have assaulted another child. The school will consider signposting parents to appropriate support organisations.

Safeguarding other children

Consideration should be given to supporting children who have witnessed sexual violence, especially rape and assault by penetration. Witnessing such an event is likely to be traumatic and support may be required.

Following any report of sexual violence or sexual harassment, it is likely that some children will take "sides". The school should be doing all they can to ensure both the victim and alleged perpetrator, and any witnesses, are not being bullied or harassed.

Social media is very likely to play a central role in the fall out from any incident or alleged incident. There is the potential for contact between victim and alleged perpetrator and a very high likelihood that friends from either side could harass the victim or alleged perpetrator online and/or become victims of harassment themselves.

The school, as part of its risk assessment, will consider any additional potential support needs to keep all of their children safe.

Key contact

Tracey Goddard - Borough Lead – Peer on Peer Abuse & Harmful Sexual Behaviour

Tracey.Goddard@walthamforest.gov.uk

Key documents

[Sexual violence and sexual harassment between children in schools and colleges](#) (May 2018)

Part 5 of [Keeping Children Safe in Education](#) (2021)

For further reference on how to support with concerns around HSB within your school please refer to <https://www.csnetwork.org.uk/en/beyond-referrals-levers-for-addressing-harmful-sexual-behaviour-in-schools>.

Appendix 3: Thresholds for intervention

Level 1 – Universal

Universal services are key partners in the delivery of a preventative approach to improving outcomes for children and young people. They provide a range of support and interventions for those children and young people who need some help, usually provided when a parent or professional has a concern about a child or young person's needs. Services delivered at the universal level meet the needs of the majority of children and young people. These 'universal services' are those services (sometimes also referred to as mainstream services) that are provided to or are routinely available to, all children and their families. Universal services are designed to meet the sorts of needs that should enhance the lives and wellbeing of all our children.

Most children will not require intervention beyond the universal level of support within the borough available to all children – these will not require social care intervention.

Waltham Forest's Early Help and Thresholds Criteria for Intervention, which can be found here www.walthamforest.gov.uk/sites/default/files/early_help_thresholds.pdf, details the agreed thresholds for intervention at different levels of risk to children and young people within Waltham Forest.

MASH

Waltham Forest has a Single Request for Help, Support and Protection via the Multi-agency Safeguarding Hub (MASH). This means that referrers do not need to make a thresholds assessment **when referring children for concerns beyond the universal level.**

A referral for Early Help and for acute concerns will go to the same point of contact: the MASH. These referrals will be assessed by professionals from social care, the police, and health. This process helps to ensure that there is:

- Timeliness of screening decisions

- Consistency of threshold decisions
- Outcomes from the single request
- Responses to referrers
- Timeliness of allocations following screening decisions

Following any information raising concern, the designated safeguarding lead will;

- Consider the child's wishes and feelings, but not promise confidentiality
- Consider any urgent medical needs of the child
- Make an immediate [referral](#) to [Waltham Forest MASH Team](#) if there has been a disclosure and/or allegation of abuse or there are clear grounds for concerns about the child's safety and well-being
- Consult with a member of Waltham Forest MASH Team if uncertain whether or not a referral is required

Early help

Early Help intervention requires parental consent and engagement. Providing early help is more effective in promoting the welfare of children than reacting later. The aim is to prevent further issues arising and current issues escalating. Early help means providing support as soon as a problem emerges, at any point in a child's life, from the foundation years through to the teenage years. Early help can also prevent further problems arising; for example, if it is provided as part of a support plan where a child has returned home to their family from care, or in families where there are emerging parental mental health issues or drug and alcohol misuse.

Effective early help relies upon local organisations and agencies working together to:

- identify children and families who would benefit from early help
- undertake an assessment of the need for early help
- provide targeted early help services to address the assessed needs of a child and their family which focuses on activity to improve the outcomes for the child

In cases where consent is not given for an early help assessment, practitioners should consider how the needs of the child might be met. If at any time it is considered that the child may be a child in need, or that the child has suffered significant harm or is likely to do so, a referral should be made immediately to [MASH](#).

Level 2 – Vulnerable

Vulnerable needs requiring targeted support, when the needs of the child can no longer be fully met within Universal provision. These children and their families may have low level additional needs that are likely to be short term and that are sometimes known but unmet.

In this context, a Common Assessment should be completed with the family and child or young person. At this point the Team around the Child and Family processes should commence if support is required from more than one professional service. The team is coordinated by a Lead Professional to provide a consistent link for the family.

The team will consider:

- If a child is in need
- Her/his stage of needs
- Which needs must be met as a priority and
- Which is the most appropriate service or services to meet these needs

These referrals to Early Help and Intervention Services will also highlight the level of need and may sometimes accelerate the intervention to Level 3 services through the Early Intervention Multi Agency Panel.

In addition, a lack of progress and improved outcomes for children and families through Level 2 intervention could trigger more robust support and intervention, meeting the Level 3 threshold.

Child In Need (s17)

Level 3 – Complex

For children and young people whose needs are complex, the lead professional will be a social worker who will work closely with the child and family to ensure a single assessment and deliver the right support and intervention. These children will be eligible for social care services, outlined in a Children in Need plan, because they are at risk of moving to a higher threshold for intervention from specialist services. In most cases the social worker will act as the lead professional to coordinate the work of all agencies with the child and family. “Asset” is the risk assessment tool used to assess the likelihood of a Young Person going on to commit an offence and to identify what areas of work need to be undertaken to reduce this risk.

Section 17 of the [Children Act 1989](#) places a general duty on every Local Authority to safeguard and promote the welfare of children living within their area who are in need and to promote the upbringing of such children, wherever possible by their families, through providing an appropriate range of services. A child in need is defined under the Children Act 1989 as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled. Local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989.

Child Protection (s47)

Level 4 – Acute

Acute Specialist Services are required where the needs of the child or young person are so great that statutory and /or specialist help and intervention is required to keep them safe or to ensure their continued development. These span the multi-agency partnership including; Children’s Social Care, Child and Adolescent Mental Health Services and Level 3 and 4 Youth Offending Services.

By effective integrated working in Waltham Forest, we aim to reduce the escalation of those children and families requiring targeted support to prevent more children requiring specialist and statutory interventions. To ensure the right support, in the right place at the right time.

In Waltham Forest we are developing a confident integrated workforce with a common core of knowledge and understanding to support and intervene effectively to safeguard children young people and families.

A very small number of children for whom targeted support will not be sufficient will have more significant and acute needs which meet the threshold for Stage 4 intervention. This includes children who are experiencing significant harm or where there is a likelihood of significant harm and children at risk of removal from home.

s47 or Child Protection intervention is the process for children where there is reasonable cause to suspect that the child is suffering or likely to suffer significant harm (this includes immediate protection for children at serious risk of harm).

Appendix 4: Designated Safeguarding Lead

A Designated Safeguarding Lead (DSL) is a member of the Senior Leadership Team, appointed to support the management of safeguarding cases within school. The DSL should take lead responsibility for safeguarding and child protection (including online safety). The DSL should be given the time, funding, training, resources and support undertake duties as listed below. Whilst the activities of the DSL can be delegated to DDSLs, the ultimate lead responsibility for child protection remains with the DSL, this lead responsibility should not be delegated.

The DSL and DDSL should undergo training to provide them with the knowledge, skills and confidence required to carry out the role. This training should be updated every two years. In addition to the training, DSLs and DDSLs should update their knowledge and skills at regular intervals and at least annually. The Deputy Designated Safeguarding Lead/s (DDSL) are trained to the same level as the DSL and can take over seamlessly in the event of the DSL being absent.

During term time, the DSL and/or DDSL should always be available (during school hours) for staff in the school to support and/or discuss any safeguarding concerns.

The DSL role includes, but is not limited by, the following:

Management of referrals

- Refer cases of suspected abuse to children's social care and police as appropriate. [NPCC- When to call the police](#) should help DSLs to understand when they should consider calling the police and what to expect when they do.
- Refer cases to the Channel programme where there is a radicalisation concern as appropriate.
- Refer cases where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as appropriate.

Provides Advice and Support

- Acts as a source of advice, support, expertise and liaison to the school community.
- Liaise with the headteacher to inform her of issues especially ongoing enquiries under section 47 of the Children Act 1989 and police investigation
- Liaises with staff (especially pastoral support staff, school nurses, IT Technicians, and SENCOs) on matters of safety and safeguarding (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies.
- Support staff who make referrals to Children's Social Care
- Support staff who make referrals to the Channel programme

Provides Expertise

- Has a working knowledge of relevant national guidance in respect of all specific safeguarding issues highlighted in Parts 1 & 5, and Annex A, B and C of [Keeping Children Safe in Education 2023](#), ensuring that all staff receive necessary training, information and guidance
- Understands the assessment process for providing early help and statutory intervention, including the criteria making a referral to MASH.
- Has working knowledge of how a child protection case conference and a child protection review conference is undertaken by children's social care and be able to attend and contribute to these effectively when required to do so
- Understands relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the General Data Protection Regulations;
- Understands the importance of information sharing, both within the school and college, and with the three safeguarding partners, other agencies, organisations and practitioners; [Data protection: a toolkit for schools](#) 2018, guidance developed to support schools with data protection activity, including compliance with GDPR.
- Understands and supports the school with regards to the requirements of the Prevent duty and are able to provide advice and support to staff on protecting children from the risk of radicalisation;
- Understands the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college;
- Can recognise the additional risks that children with SEN and disabilities (SEND) face online, for example, from online bullying, grooming and radicalisation and are confident they have the capability to support SEND children to stay safe online
- Understands that children can be at risk of abuse or exploitation in situations outside their families.
- Understands the local multi-agency safeguarding arrangements and procedures and links with the safeguarding partners to make sure staff are aware of any training opportunities and the latest local policies on local safeguarding arrangements..

Maintains & Manages Records

- Keeps detailed records in confidential files, ideally via an online safeguarding recording system, that are separate from the main pupil file and stored securely. Files records need to be dated with a clear record of who entered the record
- Ensures that, when a pupil under the age of 18 years leaves the school all child protection records are passed to the new setting (separately from the main pupil file and ensuring secure transit) and confirmation of receipt is obtained. If the child is the subject of an open case to Children's Social Care, the pupil's social worker is also informed.

Champions Children's Wellbeing

- Encourages a culture of listening to and taking account of children's wishes and feelings.

- Is alert to the specific needs of children with special educational needs, children in need, children subject to child protection or care proceedings, children in care, young carers, children with particular vulnerabilities in order to provide effective pastoral support and liaison with other agencies.
- Ensures that children and young people are supported to be able to identify risk in their lives or those of their peers in an age-appropriate way, and that they know how they can report it.
- Oversees pastoral care in school.
- Ensuring the appointment of a Designated Teacher for children who are looked after by the local authority and those who have left care through adoption, special guardianship or child arrangement orders, or who were adopted from state care outside of England.
- Helps promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children, including children with a social worker, are experiencing, or have experienced, with teachers and school and college leadership staff.
- Support teaching staff to identify the challenges that children who are experiencing or have experienced welfare, safeguarding and child protection issues might face and the additional academic support and adjustments that they could make to best support these children.

Primary point of contact for safeguarding

- Act as a point of contact with the three safeguarding partners
- Attends and/or contributes to child protection conferences, strategy meetings and multi-agency sexual exploitation (MASE) meetings.
- Co-ordinates school's contribution to child protection plans as part of core groups, attending and actively participating in core group meetings.
- Develops effective links with relevant statutory and voluntary agencies, including the local safeguarding partnership.
- Works in partnership with social workers and with safeguarding partnership to support the child.
- Notifies social care if a child on child protection is absent for more than two days.

Supports and Liaises with Parents, Carers & Families

- Ensures parents are aware of the school/college's role in safeguarding and that referrals about suspected abuse and neglect may be made.
- Ensures that the safeguarding policies are made publicly available (e.g., on the website) and are easily accessible to all (staff, parents, children, those for whom English is not a first language).

Sets and Communicates Policy

- Updates safeguarding policies (safeguarding, child protection, online safety, safer recruitment, code of conduct, etc) annually in line with the Local Safeguarding Partnership and statutory requirements
- Ensures that all staff have read and understood:
 - [Keeping Children Safe in Education](#) 2023 (Part 1 or annex A)
 - The child protection and safeguarding policy
 - The staff behaviour policy (code of conduct)
 - The behaviour policy including de-escalation tactics, and are trained on acceptable restraint
 - School's safeguarding response to children who go missing from education
 - The role of the designated safeguarding lead & how to get in touch
- Ensures that the child protection and safeguarding policy and procedures are reviewed and updated at least annually, working with the whole school community of pupils, parents, staff, volunteers and governors regarding this.
- Keeps a record of staff attendance at child protection training.

Coordinates Training & Induction

- Develops a training strategy to ensure that all staff obtain the appropriate training / updates, skills and knowledge to safeguard children effectively within the local Safer Partnership requirements.
- Undertakes appropriate training themselves, including attending regular DSL Forums, and is given appropriate time and resources to carry out the role.
- Ensures that all staff understand that if they have any concerns about a child's welfare, they should act on them immediately, either by speaking to the DSL or DDSL or, in exceptional circumstances, taking responsibility to make a referral to Children's Social Care.
- Ensures that all staff know how to make a referral to children's social care.
- Quality assures casework by other staff, possibly through supervision.
- Ensures each member of staff has access to, and understands, the school's or college's child protection policy and procedures, especially new and part time staff.

Ensures Safer Recruitment / Management of Allegations against Staff & Volunteers

- Ensures Safer Recruitment as per the Safer Recruitment policy; develops safeguarding induction strategy for all new / temporary staff.
- Ensures all staff, including temporary staff and volunteers have read the school's safeguarding policy and the Code of Conduct / Behaviour Policy prior to access to children.
- Ensures that the headteacher is aware of the responsibility under [Working Together to Safeguard Children](#) 2018 to refer all allegations that a child has been harmed by or that

children may be at risk of harm from a member of staff (including supply staff) or volunteer to the Designated Officer in the Local Authority (LADO) within one working day prior to any internal investigation; and to the Disclosure and Barring Service (DBS) as appropriate.

Appendix 5: Standards for Effective Child Protection Practice in Schools

The school's child protection and safeguarding responsibilities are inspected under the 'Leadership and Management' judgement in Ofsted inspections. The following standards may assist schools in evaluating their practice. They should be used jointly by the Designated Safeguarding Lead and the Designated Link Governor for Safeguarding to ensure the school is effective in safeguarding and child protection matters.

In best practice, schools:

- Have an ethos in which children feel secure, their viewpoints are valued, and they are encouraged to talk and are listened to;
- Provide suitable support and guidance so that pupils have a range of appropriate adults to whom they can turn if they are worried or in difficulties;
- Work with parents to build an understanding of the school's responsibilities to safeguard and promote the welfare of all children and a recognition that this may occasionally require children to be referred to investigative agencies as a constructive and helpful measure;
- Ensure all staff can identify children who may benefit from early help; provide co-ordinated offers of early help; and ensure that children receive the right help at the right time to address concerns and risks and prevent issues escalating;
- Are vigilant in cases of suspected child abuse, recognising the signs and symptoms, have clear procedures whereby all members of staff report such cases to the Designated Safeguarding Lead or – in her/his absence – the deputy Designated Safeguarding Lead, and are aware of Local Authority and procedures so that information is passed on effectively to the relevant professionals;
- Monitor children who have been identified as in need of early help or at risk; maintain clear records of pupils' progress and welfare *in a secure place*; maintain sound policies on confidentiality; provide appropriate information to other professionals; and submit reports to and attend child protection conferences;
- Provide and support regular child protection training and updates for all school staff and ensure that Designated Safeguarding Leads attend refresher training every two years to ensure their skills and expertise are up to date; and ensure that targeted funding for this work is used solely for this purpose;
- Contribute to an inter-agency approach to safeguarding and child protection by developing effective and supportive liaison with other agencies;
- Use the curriculum to teach children about safeguarding and raise their awareness and build confidence so that pupils have a range of contacts and strategies to identify risk, know who they can talk to about anything causes them concern and understand the importance of protecting others;
- Provide clear policy statements for parents, staff and children and young people on this and on both positive behaviour policies and the school's approach to bullying;
- Have a clear understanding of the various types of bullying and peer on peer abuse – face to face, online, physical, verbal, sexual, prejudice based and indirect - and act promptly and firmly to combat it, making sure that pupils are aware of the school's position on this issue and who they can contact for support;

- Have a clear understanding of the signs and impact of racist, disability, homophobic, transphobic and teenage relationship abuse; and a clear commitment to identifying and challenging those forms of abuse in order to safeguard children and maintain the safeguarding culture of the school.
- Take particular care that pupils with SEN in mainstream and special schools, who may be especially vulnerable to abuse, are supported effectively with attention paid to ensuring that those with communication difficulties are enabled to express themselves to a member of staff with appropriate communication skills;
- Have a clear policy about the handling of allegations of abuse by members of staff, ensuring that all staff are fully aware of the procedures and that they are followed correctly at all times, using the guidance set out in [Keeping Children Safe in Education](#) 2023 and London Child Protection Procedures which can be found online;
- Have a written whole school safeguarding policy, which is produced, owned and regularly reviewed by all school staff, considering the views of children, parents/carers and governors, and which clearly outlines the school's position and positive action in respect of the standards;
- Ensure that specified information is passed on in a timely manner to the Local Authority for monitoring purposes;
- Have a Single Central Record in place that fully complies with the guidance in [Keeping Children Safe in Education](#) 2023;
- Ensure appropriate arrangements are in place in relation to external professionals visiting children on site including ensuring they have read and understood the child protection policy.

For advice and support about any safeguarding matter in school or for information about a range of safeguarding training courses, please contact the Education Safeguarding Service:

Email: Gillian.Nash@walthamforest.gov.uk

Telephone: 020 8496 3682

Appendix 6: Safer Recruitment

Mission Grove will ensure that their Safer Recruitment policy is in place and updated annually, and that it is followed meticulously for the recruitment of all permanent and temporary staff and volunteers.

Safer recruitment means that the **school** will ensure the following:

1. Planning and Advertising

- Every job description and person specification include responsibility for safeguarding

2. Interview

- At least one interview question about attitude to safeguarding and working with children
- Verify the preferred candidate's mental and physical fitness to carry out their work responsibilities
- At least one member of each recruitment panel will have attended safer recruitment training

3. Vetting

- Obtain references for all shortlisted candidates via reference proforma, including internal candidates, and follow up by phone
- Carry out additional or alternative checks for applicants who have lived or worked outside the UK
- Undertake an online search for all shortlisted candidates to identify any incidents or issues that are publicly available online which might require further exploration with the applicant during interview.
- Ensure that applicants for teaching posts are not subject to a prohibition order
- *Maintained schools* – check that governors are not the subject of a s128 direction prohibiting or restricting them from taking part in the management of an independent school, academy or free school because a person subject to one is disqualified from being a governor.
- Applicants only begin work after providing DBS certificates. Exceptionally, if an individual starts work in the regulated activity before the DBS certificate is available, the individual must be appropriately supervised, and the employment remains conditional on suitably clear checks.
- Barred List checks will always be taken prior to the individual starting to work in a school or college.

4. Appointment

- Offers of employment are fully conditional on unblemished DBS certificate (or a risk-assessed blemished DBS certificate that meets a high standard of safeguarding) and full references, using a references proforma (that requests whether candidates would be re-

employed for the same post and whether there have ever been any safeguarding concerns), followed up by phone.

5. Induction

- Once appointed, a full safeguarding induction process must be put in place for all new staff, that includes rigorous monitoring in order to pick up any concerns early.
- All staff are required to sign to confirm they have received a copy of the safeguarding policy and Staff Behaviour Policy (code of conduct), and that they have read [Keeping Children Safe in Education](#) 2023.
- All relevant staff (teachers, teaching assistants, other classroom-based staff, lunchtime supervisors and members of the senior leadership team) and all those who work in before or after school care for children under eight are made aware of the disqualification legislation.

6. Third Party Organisations

- Mission Grove obtains written confirmation from supply agencies and third party organisations that they have satisfactorily undertaken all appropriate checks in respect of individuals they provide to work in the school that the school would have undertaken if they were employing the individual directly; and that those individuals are suitable to work with children.
- Mission Grove will ensure that any staff from third party organisations have suitable and up-to-date training in safeguarding.
- Trainees and Students on placements should be subject to the same checks as other members of staff. However, fee-funded trainee teachers' checks should be carried out by the training provider and should be judged by the provider to be suitable to work with children. The school is not required to record details of fee-funded trainees on the Single Central Record. However, the school requires written confirmation from the provider that these checks have been carried out and are satisfactory.

7. Recording

- The school maintains a single central record of recruitment checks undertaken and ensures that the record is maintained in accordance with section 3 of [Keeping Children Safe in Education](#) 2023 and guidance.

8. Ongoing training & management of concerns and allegations

- See sections above

Safer recruitment means that all **job applicants** will:

- **Complete an application form** which includes their employment history and explains any gaps
- **Provide two referees**, including the current employer, and at least one who can comment on the applicant's suitability to work with children. References should be requested by using a proforma that asks directly about whether there have ever been any safeguarding concerns raised and whether the applicant would be hired again for the same position; references should be followed up by phone.
- **Provide evidence** of identity and qualifications

- **Be checked in accordance with the Disclosure and Barring Service (DBS)** regulations as appropriate to their role if offered employment. This will include:
 - an enhanced DBS check and a barred list check for those including unsupervised volunteers engaged in Regulated Activity;
 - an enhanced DBS check without a barred list check for all volunteers not involved in Regulated Activity but who have the opportunity of regular contact with children;
 - an enhanced DBS check for all governors (not including associate members), which will only include a barred list check for governors involved in Regulated Activity
- Provide evidence of their right to work in the UK, if offered employment
- Be interviewed by a panel of at least two school leaders/governors with at least one member of the panel trained in Safer Recruitment in the past three years, if shortlisted.

Mission Grove endeavours to only employ suitable staff and allow suitable volunteers to work with children by complying with the requirements of [Keeping Children Safe in Education](#) 2023 together with the school's and the *Safer Recruitment* policy.

Schools & Colleges are 'specified places' which means that most staff and volunteers will be engaged in Regulated Activity.

Volunteers

- Volunteers will undergo checks commensurate with their work in the school and contact with pupils. Under no circumstances will a volunteer who has not been appropriately checked be left unsupervised or be allowed to engage in regulated activity.
- Volunteers who work only in a supervised capacity and are not in regulated activity will undergo the safer recruitment checks appropriate to their role, in accordance with the school's risk assessment process and statutory guidance.

Contractors

- The school checks the identity of all contractors and their staff on arrival at the school and requests DBS checks where appropriate. As required by statutory guidance, where contractors and/or their staff are engaged in regulated activity, barred list checks are also requested.

Contractors who have not undergone checks will not be allowed to work unsupervised or in regulated activity.

Appendix 7: Allegations against staff and volunteers (ASV)

If there are any concerns that a practitioner (including supply teachers) or volunteer has caused harm (emotional, physical, sexual, neglect) to a child, this represents an allegation against staff and volunteers.

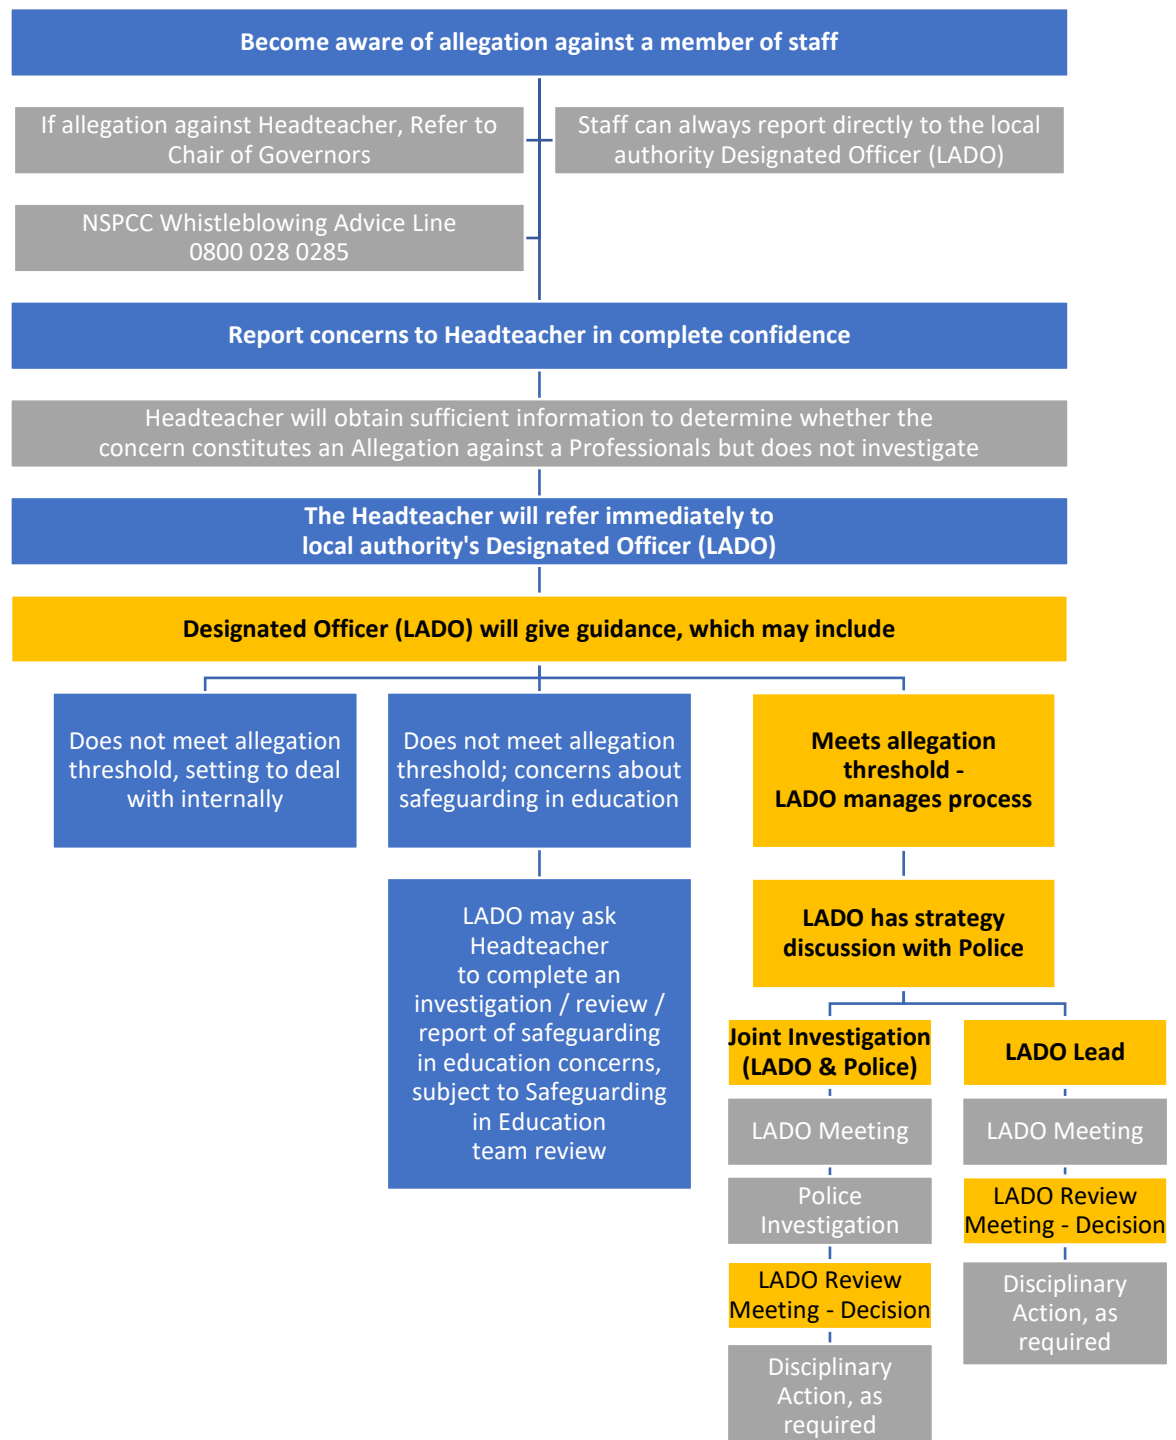

All allegations against staff (including supply teachers) and volunteers must be reported to the Headteacher / Principal in the first instance. The person against whom the allegation is made should not be notified at this point.

The full procedures for dealing with allegations against staff can be found in Part 4 of [Keeping Children Safe in Education](#) 2023, and Part 7 of London Child Protection Procedures, available online.

Initial Action by person receiving or identifying an allegation or concern

- Whilst allegations may be false, malicious or misplaced, they may also be founded in truth; all staff must report allegations even if they reasonably believe them to be false.
- All allegations must be investigated properly, in line with agreed procedures and outcomes recorded.
- Staff must treat all allegations seriously and keep an open mind.
- Make a written record of the information, including the time, date and place of incident/s, persons present and what was said and sign and date this.
- Immediately report the matter to the headteacher/proprietor.
- Do not share allegations with any other member of staff, including the subject of the allegation.
- If the allegation is against the headteacher, staff must report to chair of governors / trustees.
- If there is a lack of faith in the safeguarding governance, all staff can contact the local authority's Designated Officers (also known as LADOs) directly, without delay:
020 8496 3646 / lado@walthamforest.gov.uk.

Allegations Procedures in School

- For an allegation to proceed to its conclusion, the police investigation must be completed.
- For the disciplinary process to commence within the school, the LADO process must be concluded.

Threshold for statutory LADO involvement

As required by [Working Together to Safeguard Children](#) 2018, all allegations in respect of an individual who works at the school that fulfil any of the following criteria will be reported to the Designated Officer in the Local Authority (LADO) within one working day:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates they may pose a risk of harm to children
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children

Child / children (victims)

- If children are identified as victims of harm, they must be protected from harm.
- If children are believed to have suffered / likely to suffered significant harm, they must be referred to MASH.
- Concerns must be discussed with children's parents at the earliest opportunity; they must maintain confidentiality during the investigation phase of the LADO process.

Subject of allegations

- Staff who are the subject of an allegation have the right to have their case dealt with fairly, quickly and consistently and to be kept informed of its progress.
- School will appoint a named contact person for the subject of the allegation, they will be advised to seek advice / support from a union rep; the employee assistance programme information will be shared.
- Mission Grove as employers have a duty of care to their employees. Effective support for anyone facing an allegation should be provided
- Where the school is not the employer of an individual they still have responsibility to ensure allegations are dealt with appropriately, liaising with relevant parties (this includes supply teachers and volunteers,

Supply teachers

- Mission Grove will ensure allegations against supply teachers are dealt with properly. In no circumstances will Mission Grove decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the LADO to determine a suitable outcome.
- The governing body will discuss with the agency whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school, whilst they carry out their investigation.
- Agencies should be fully involved and co-operate in any enquiries from the LADO, police and/or children's social services.
- The school will take the lead because agencies do not have direct access to children or other school staff, so they will not be able to collect the facts when an allegation is made, nor do they have all the relevant information required by the LADO as part of the referral process.
- Supply teachers, whilst not employed by the school are under the supervision, direction and control of the governing body or proprietor when working in the school or college. They should be advised to contact their trade union representative if they have one, or a colleague for support.
- The ASV meeting arranged by the LADO will address issues such as information sharing, to ensure that any previous concerns or allegations known to the agency are considered by the school during the investigation.
- When using an agency, the school will inform the agency of its process for managing allegations. This should include inviting the agency's human resource manager or equivalent to meetings and keeping them up to date with information about its policies.

Suspension

- Suspension is not the default option and alternatives to suspension will always be considered.
- It is usually preferable if the child/ren involved in allegation and the practitioner in question are not in contact.
- In some cases, staff may be suspended where this is deemed to be the best way to ensure that allegations are investigated fairly, quickly and consistently and that all parties are protected. In the event of suspension, the school will provide support and a named contact for the member of staff, who will be in touch periodically as agreed upon suspension.

Confidentiality

- Staff, parents and governors are reminded that publication of material that may lead to the identification of a teacher who is the subject of an allegation is prohibited by law. Publication includes verbal conversations or writing, including content placed on social media sites.
- In accordance with [Keeping Children Safe in Education](#) 2023, the school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

Non-recent / historical allegations

- Allegations concerning staff who no longer work at the school or historical allegations will be reported to the Police.

False Allegations

- It is relatively rare for a child to make an entirely false or malicious allegation, although misunderstandings and misinterpretations of events do happen. If, following investigation, it transpires that a child has made a false allegation, there may be other concerns regarding their welfare that may need to be unpicked or assessed.
- If an adult makes a false allegation and they are employed, this will result in disciplinary procedures. If an individual makes false allegation and police are involved, they may charge them with 'wasting police time' or 'perverting the course of justice'.

Behaviour in Personal Life

- As well as concerns related to conduct towards children, practitioners must be alert to their behaviour and events occurring in their private life. For example, if practitioners' own children become subject to child protection investigations, or if they exhibit worrying violent or sexual behaviour that could impact on their suitability to work with children.

Disqualification

Early Years & Childcare staff:

- Under [Disqualification under the Childcare Act](#) 2006, as amended 31/08/18, disqualification by association still applies to practitioners working in schools with children up to and including reception during the school day.
- For staff who work in childcare provision or who are directly concerned with the management of such provision, the school needs to ensure that checks are carried out to ensure that they are not disqualified under the [Childcare \(Disqualification\) Regulations](#) 2009.
- Relevant / identified staff must self-declare that they are not disqualified.

All Staff:

- All practitioners must be alert to the amended guidance on disqualification which is no longer only in relation to staff working with children under 8 years. Their relationships and associations (including online) may have an implication for the safeguarding of pupils, and if there are concerns about that, practitioners must inform school.
- All staff should be alert to the fact that they are responsible for alerting school if their circumstances change.
- School will retain records of self-declarations on the Single Central Record.

Abuse of position of trust

- All school staff are aware that inappropriate behaviour towards pupils is unacceptable and that their conduct towards pupils must be beyond reproach.
- In addition, staff should understand that, under the [Sexual Offences Act 2003](#), it is an offence for a person over the age of 18 to have a sexual relationship with a person under the age of 18, where that person is in a position of trust, even if the relationship is consensual. This means that any sexual activity between a member of the school staff and a pupil under 18 may be a criminal offence, even if that pupil is over the age of consent.
- Such a relationship will nonetheless always be viewed as a significant safeguarding concern and would constitute a reason for dismissal and referral to DBS for safeguarding reasons.

LADO Outcomes

The following definitions should be used when determining the outcome of allegation investigations:

- ***Substantiated allegations***
There is sufficient evidence to prove the allegation that a child has been harmed or there is a risk of harm.
If the facts of the incident are found to be true but it is not found that a child has been harmed or there is a risk of harm, then consideration should be given to deciding that the outcome is 'unsubstantiated' or 'unfounded'.
- ***Malicious***
There is enough evidence to disprove the allegation and there has been a deliberate act to deceive. The police should be asked to consider what action may be appropriate in these circumstances.
- ***False allegations***
There is enough evidence to disprove the allegation, however, there is no evidence to suggest that there was a deliberate intention to deceive.
False allegations may be an indicator of abuse elsewhere which requires further exploration. If an allegation is demonstrably false, the employer, in consultation with the LADO, should refer the matter to LA children's social care to determine whether the child needs services, or might have been abused by someone else.
- ***Unsubstantiated allegations***
There is insufficient evidence to either prove or disprove the allegation. The term, therefore, does not imply guilt or innocence.
- ***Unfounded***
The additional definition of 'unfounded' can be used to reflect cases where there is no evidence or proper basis which supports the allegation being made. It might also indicate that the person making the allegation misinterpreted the incident or was mistaken about what they saw. Alternatively, they may not have been aware of all the circumstances.

The Chair of the meeting / discussion should make a record of the agreed outcome and forward this to the employer.

- References in cases where the allegation is false, unsubstantiated or malicious

- Cases in which an allegation was proven to be false, unsubstantiated or malicious should not be included in employer references.
- A history of repeated concerns or allegations which have all been found to be false, unsubstantiated or malicious should also not be included in any reference unless specifically asked for in a reference proforma. Please seek HR advice in this instance.

Record keeping in relation to the outcome of an investigation

- Details of allegations that are found to have been malicious should be removed from personnel records.
- For all other allegations, it is important that a clear and comprehensive summary of the allegation, details of how the allegation was followed up and resolved, and a note of any action taken and decisions reached, is kept on the confidential personnel file of the accused, and a copy provided to the person concerned.
- The purpose of the record is to enable accurate information to be given in response to any future request for a reference, where appropriate.
- It will provide clarification in cases where future DBS checks reveal information from the police about an allegation that did not result in a criminal conviction and it will help to prevent unnecessary re-investigation if, as sometimes happens, an allegation re-surfaces after a period.
- The record should be retained at least until the **accused has reached normal pension age or for a period of 10 years from the date of the allegation if that is longer.**

DBS Referrals

- Mission Grove has a legal duty to refer any person engaged to work in regulated activity in school where the allegation has been substantiated, or where harm test has been met, irrespective of whether another body has made a referral to the DBS in relation to the same person; failure to do so is an offence.
- DBS referral can take place at any time during the Allegations / Disciplinary process – it should take place at the earliest stage possible. There could be times when you consider that you should make a referral in the interests of safeguarding children or vulnerable adults even if you have not removed the person from working in regulated activity; this could include acting on advice of the police or a safeguarding professional, or in situations where you don't have enough evidence to dismiss or remove a person from working with vulnerable groups. Making DBS referrals where the referral conditions are not met, will be done in consideration of relevant employment and data protection laws.
- DBS are required by law to consider all information sent to us from any source. This includes information sent to us where the legal referral conditions are not met. DBS will use legal powers and barring processes to determine whether the person should be barred from working in regulated activity with children and / or vulnerable adults.
- Harm, in this case, is not defined in legislation. DBS view harm as its common understanding, or the definition you may find in a dictionary. Harm is considered in its widest context and may include (This is not a fully comprehensive list; harm can take many different forms):

- sexual harm
- physical harm
- financial harm
- neglect
- emotional harm
- psychological harm
- verbal harm

As an employer of practitioners and volunteers in a regulated activity, Mission Grove must make a referral when both of the following conditions have been met:

Condition 1

- Permission is withdrawn for a person to engage in regulated activity with children and/or vulnerable adults, including moving the person to another area of work that isn't regulated activity.
- This includes situations when you would have taken the above action, but the person was re-deployed, resigned, retired, or left. For example, a teacher resigns when an allegation of harm to a student is first made.

Condition 2

- You think the person has carried out one (1) of the following:
 - engaged in relevant conduct in relation to children and/or adults. An action or inaction has harmed a child or vulnerable adult or put them at risk of harm, or;
 - satisfied the harm test in relation to children and / or vulnerable adults. e.g., there has been no relevant conduct but a risk of harm to a child or vulnerable still exists, or;
 - been cautioned or convicted of a relevant (automatic barring either with or without the right to make representations) offence
- When employing agency staff, both Mission Grove and the agency have a responsibility to refer as above.
- Relevant conduct in relation to a child (a person under 18 years of age) includes:
 - endangers a child or is likely to endanger a child
 - if repeated against or in relation to a child would endanger the child or be likely to endanger the child
 - involves sexual material relating to children (including possession of such material)
 - involves sexually explicit images depicting violence against human beings (including possession of such images)
 - is of a sexual nature involving a child
- A person's conduct endangers a child if they:
 - harm a child
 - cause a child to be harmed
 - put a child at risk of harm
 - attempt to harm a child

- incite another to harm a child

The full procedures for dealing with allegations against staff can be found in [Keeping Children Safe in Education](#) 2023.

Appendix 10: Summary document for volunteers and visitors

This document is shared, in addition to the full policy, with all volunteers, trainee teachers and work experience students who are not employed by the school, as part of their induction.

Safe-guarding and Child Protection Summary for Volunteers and Visitors

The summary sheet is for all visitors and volunteers to the school, including those on supply and short term contracts. Ensuring that you read this sheet contributes to the school's commitment to safeguarding and promoting the welfare of our pupils.

Statement of Intent

Mission Grove Primary School recognises that it is everyone's responsibility to promote and protect the welfare of children and protect them from harm. The school plays a significant part in the prevention of harm to our pupils by providing pupils with good lines of communication with trusted adults, supportive friends and an ethos of protection.

The school community will therefore:

- Establish and maintain an ethos where children feel secure and are encouraged to talk and are always listened to.
- Ensure that all children know there is an adult in the school whom they can approach if they are worried or in difficulty.
- Include in the curriculum opportunities for PSHCE, which equip children with the skills they need to stay safe from harm and to know to whom they should turn for help.
- Have a commitment to working with other professionals from a variety of agencies in support of safeguarding our children.
- Ensure all staff are subject to an enhanced DBS and all volunteers must have a valid CRB or DBS certificate before taking up a position in the school.

As an adult working or visiting this school you have a duty of care towards all children. This means that you should act at all times in a way that is consistent with their health, safety and welfare. If you have a concern about a child, particularly if you think s/he may be suffering or at risk of suffering harm, it is your responsibility to share the information promptly with the designated member of staff for Safeguarding (Kate Jennings, Headteacher, Gemma Kent, Deputy Headteacher, Shaesta Khan, Assistant Head for Early Years or Ben Darling, Assistant Head for KS1). In the absence of the Designated Safeguarding Leads you should hand your written record of your concerns to the school office, marked for the attention of the safe-guarding leads.

The following is not an exhaustive list but you might become concerned as a result of:

- Seeing a physical injury which you believe to be non-accidental
- Observing something in the appearance of a child which leads you to think his/her needs are being neglected
- Witnessing behaviour which gives rise to concern
- A child telling you that s/he has been subjected to some form of abuse

In any of these circumstances you should write down what you observed or heard, date and sign the account and give it to the designated member of staff.

If a child talks to you about (discloses) abuse you should:

- Listen carefully without interruption, particularly if s/he is freely recalling significant events
- Only ask sufficient questions to clarify what you have heard. You might not need to ask anything but, if you do, you must not 'lead' the child in any way so should ask open questions
- Make it clear you are obliged to pass the information on, but only to those who need to know.
- Tell the designated member of staff without delay.
- Write an account of the conversation as soon as you are able (definitely the same day), date and sign it and give it to one of the safe-guarding leads.

If a child talks to you about (discloses) abuse you must not:

- Promise to keep it confidential
- Discuss the disclosure with anyone other than the designated safe-guarding leads.
- Ask the child to repeat the disclosure to anyone else in school
- Press the child for revelations or ask leading questions
- Attempt to remove clothing
- Suggest ways in which it might have happened
- Suggest who may have caused an injury
- Attempt a detailed physical examination
- Inform parents

You are not expected to make a judgement about whether the child is telling the truth.

If the behaviour of another adult in school gives rise for concern you should report it to the headteacher.

REMEMBER: - SHARE ANY CONCERNS – DON'T KEEP THEM TO YOURSELF.

I have received, read and understood a copy of 'Safe-guarding and Child Protection Summary for Volunteers and Visitors' and understand my roles and responsibilities as set out in this document.
